# APPLIED META-PHYSICS, THE SCIENCE OF BE-ING AND KNOWING

## **Lesson: The Law of Order**

*“Let all things be done decently and in order”.*

Universal Laws LIVE, they are an aspect of God, and as such no one can circumvent them and continue to live; for they write into our bodies the fruit of all our thoughts and motives.

We are each self-perpetuating, self-renewing, living ‘Books of Life’ a living record of every thought-word-deed, everything we eat, drink, do, experience and have done to us.

Therefore, through our recognition of our innate sense of morality, we are either ReGenerating and entering into consciousness of Everlasting life, or tearing this

temple down to the ground in degeneration, suffering, sickness, dis-ease and death.

There is no medication can 'save' the human family's members from individual responsibility.

In the last few lessons, I have discussed some of the various elements *concealed in the Helios Biblia*, which reveal our biology, physiology; our body as our *Book of Life*! At this point I remind the reader that those who lived by the scriptures, even before the advent of the I AM (Jesus) blazing forth in consciousness, were called 'Magi', from where we get the modern word Magicians.

These Magi, were travellers, nomads, they went from town to town, city to city carrying with them their teachings, and they taught and healed everyone who *would receive them*.

This ‘*receiving*’ is more than an open tent flap to share a meal, some water, rest and interact for a while; it was the opening of the hearts and minds of the town dwellers to receive what *was offered in love*.

The settlers received the travellers and the travellers shared their Spiritual power, their Spiritual *fruit*, and they healed those who were sick.

That individual healing via the defragmentation and unification of an individual’s consciousness, through a *profound* understanding of our psychology (Soul science), and Spiritual source. That the consequent establishing of social harmony by restoring Order, *is the purpose of religion* seems to have escaped those who see ‘religion’ as a ‘franchise’, a ‘business’ opportunity.

Travellers such as the Magi, had a purpose; they were *called out of the disorder of the world, educated into an understanding of its Divine Order, and sent back to the world to reintroduce the Order which it had lost.*

*They were sent to teach the human family, their own nature as children of God, restore that awareness and through that, the healing power flowed through them, bearing witness to the Truth and did its work.*

Many of those who had succumbed to the egregores and demons of materiality, selfishness and greed, resented the presence of these travellers; of these healers. They sought to drive them out, or eliminate them, so they could sustain their delusion of authority over the people.

The principle is simple... a per-

son claiming to be a 'leader' in material terms, who is impotent when it comes to really important things such as health... is revealed as a fraud when the light and truth of the true healers is revealed.

Such is the power of Truth, it shines its light, does its work, and those who previously deceived and claimed 'authority' and sustained it through violence, are unveiled and seen for what they are: blind guides leading the blind".

These travellers did no 'miracles', they healed through the application of the *Science of Spiritual Law*, which they called into action, whenever the need arose.

A fraud has no such ability. All their 'ability' is restricted to the intellect, which is where Satan has set up his throne, and he is

allowed to go no farther.

‘He’ can go no farther because that which he deceives the mind with is error, and while the intellect can lie, *the emotional intelligence and feelings do not.*

So, we are taught that ‘Satan’s’, ‘kingdom’ is limited, and that limitation is the *intellect*.

As soon as the Light of emotional intelligence and Spiritual intimacy *touches* the intellect, it becomes aware of a source of life *higher than itself*.

Previous to that, those dwelling in the intellect are in “outer darkness”, albeit, the powers of the intellect are still there... it can think, analyse (divide, dissect, inspect, etc.) it is clever, simulating genius even, yet, it recognises no light higher than itself, so is darkened by the Race Thought

Atmosphere and infested with despotism, selfishness, greed, fear, lust, and all the other ideas-thought-words, which cause degeneration of mind and body.

The Law of order governs the process of Life. First the seed, then the germination, the root and the shoot, then development of these, then the leaves, then the fruit.

It is ignorance of this process on a *cosmic scale*, which has caused the hu-man family to grow impatient, and through eating the fruit of the tree of the knowledge of good and evil, some people set up their own rules, posing as 'laws', and because of their corrupt state they think that because they 'made the law', they are above it!..

In doing so, they are committing suicide because they are ignoring

the Divine Law written into every atom and fibre of our being...into our DNA.

This point is so important because the Decalogue is the Doorway to Life!

The 'commands' are the Higher Mind, the "I AM THAT I AM" Speaking to the Lower mind, giving it the in-structions, the power, to understand its corrupt nature and be liberated from it.

Our I AM *knows* the corruption of the lower (666) mind and when it speaks the **Word**, the **Word** contains the Spiritual LIGHT, which, when received by the lower mind, *liberates* it from the corruption, which binds it to death.

In the world today, there is much discussion around the number '666' and many examples of people using it, creating logos with

it, hand signs, and forming groups around it, and they do not realise they are glorifying the lower mind and *sustaining the sleep of death*.

The I AM (Jesus) comes to “fulfil the Law”, that is impart the Power to every receptive individual to be able to Live by its precepts and therefore receive the abundant life, which flows forth welling up within us, via the Higher (888) mind, when we are in harmony with it.

When the scriptures were hijacked and used to induce fear instead of eliminate it, the Wisdom contained in them remained buried in the Words out of sight of the hijackers.

Consequently, the human family could not receive the power of the Living Law to liberate it from corruption, so as the Race

Thought Atmosphere influenced more and more people with its material thinking, egregores, demons, jinn and base desires, those who had assumed 'authority' made more 'laws' in an attempt to make up for their Spiritual impotence.

They kept on making 'laws' until the whole world is so full of 'laws' that the very principle of the Decalogue, which is to be the foundation for life and liberty, has been corrupted out of all recognition, is buried in lies, and is used to induce fear and become a prison, because those sustaining it are enslaved by the egregores and the filthy lucre they provide.

To use an analogy, LIFE is like an ocean and in the ocean there are 10 buoys each electrified, and if a fish swims close to them, then they get a shock, which will

not kill them, just teach them to swim far from the buoy.

Add to this ocean more buoys, all electrified, and the electricity is broadcast farther afield. Soon, with every buoy, the water is so full of buoys that the fishes have no freedom to swim, they are struggling with one another for space, and there are so many buoys they can hardly swim anywhere without getting an electric shock. *This is an analogy showing how coercion and punishment has replaced WISDOM.*

Those who sustain this system are the intellectuals, they are un-awares of the real purpose of the Divine Law, so they think they need to 'punish' and 'reform' others... yet, the punishment does not cleanse the Race Thought Atmosphere, the dark psychic forces, which enslave the human family; rather it ***adds to the de-***

***structive forces of the Race Thought Atmosphere and enslaves the hu-man family even more.*** Any 'reform' or 'rehabilitation', only seeks to realign those subjected to this dark Satanic system, to be more in align with Satan, and which sustains the sleep of death!

The *Way to Liberty* is to drink the Living Water of the Spiritual Power flowing through us, which restores Wisdom and Love, and then we are in alignment with the Decalogue, and realise all the other buoys in the ocean are a *mental delusion*.

The whole of the liberty of the Hu-man family is summed up in the two commands confirmed by Jesus as being the total summation of all the Law and the Prophets:

*"Though shalt love the Lord thy God*

*with all thy heart, soul, mind and strength”.*

*“Thou shalt love thy neighbour as thyself”.*

Speaking these commands while focussed in the heart, invokes the Holy Spirit of the Higher mind (888), and purges the lower (666) mind, liberating it from its corruption.

As the corrupt behaviour is dissolved; as we speak these words and uproot the seed ideas sustaining corruption growing in the garden of mind, *we are liberated from the old forms of behaviour.*

Our guiding principle at this stage, which enables us to remain in constant contact with the Living Water percolating up within us, is:

*“Do unto others as you would have them do unto you”.*

Generally referred to as the ‘*golden rule*’, it is the state of consciousness, which enables us to sustain *a direct connection* to our Spiritual blueprint and as we live, and think, we are ‘drawing’ the physical body using this principle, and it becomes a projection of the perfection of the Spiritual Body.

By aligning with the Divine Law, we attain the more “abundant life”, which the I AM (Jesus) is teaching us to attain.

The world’s legal system is an analogy, and as every in-vention is teaching us *about ourselves*, let’s look at it.

The court room is a form of ‘temple’ and while men are corrupt, they can never understand the full import of its *symbolism*.

Each aspect of the legal system

and each person in the court room reveals a *principle at work in our consciousness, which no one can circumvent and remain alive.*

*The courtroom represents the mind working to restore **Universal order** in each individual and **harmony in society**. Yet, as long as it is used for personal gain, just as long shall the human family remain, divided, sick and in the sleep of death.*

*This analogy teaches us the processes at work constantly within our own minds.*

### **The Divine Law—The Law of Order & the Omnipresent Divine Principle**

The court room: is the conscious mind.

The judge:

- (1) the executive will in action
- (2) the law in executive capacity
- (3) the superconscious mind.

These three levels of operation are on different planes of activity. The first is the *lower* (666) mind, the second is the *higher* (888) mind and the third is the conquering (1,000) phase of mind.

The Stenographer: Conscious and sub-conscious memory.

Prosecution: Thoughts and experiences *against* any idea in accordance with the law and all past experiences and education.

Defence: Thoughts in favour of ideas in accordance with the law, all past experiences and education.

Jury: 12 of our **PEERS**. One from each house of the Zodiac and the **same age**. (These repre-

sent the 12 faculties of the mind).

### The Witnesses:

All thoughts relating to the experience that the individual is passing through. Each side shall 'call' these 'facts' into consciousness to testify according to their experience. The witnesses are the emotional intelligence acting according to the fruit of their experience.

The case of - Whatever idea or situation is presented in mind.

### Outcomes:

Acquittal: Freedom of expression.

Convicted: Denied expression in consciousness.

Case postponed: Procrastination. Procrastination serves the purpose of gathering more of whatever is needed to complete that

task in accordance with one's inspiration, and their highest ideals.

Procrastination is not a 'problem' except for those who do not understand the thought process, or the workings of the Divine Law, which ensures, that everything be done "decently and in **order**".

*Every thought* we think goes through this process, either consciously or unconsciously, and the results of **every decision** we make is *written into the cells of our body*, as each decision creates an electromagnetic impulse, which is then sent to do the body-building work contained **in the meaning of each decision**.

So back of every decision we make, which is our own mind's 'executive capacity' is a Living Law which holds every person responsible for their every

thought-word and deed.

Jesus's mission was not to teach 'morality'. He was the embodiment of absolute intelligence who came to reveal the Divine Order as it **already exists**, which He called: "the Kingdom of the Heavens".

End.

**Applied Meta-Physics** is the oldest Science in existence. It is the study of who we are and why we are here.

It is sometimes called 'The Science of Making the Ideal Real', because it identifies in concrete terms the abstract workings of the mind, and teaches the steps every eternal idea passes through in transition from the plane of the eternal spiritual world, to become manifest on the earth plane.

The sacred writings we have inherited are meta-physical in nature. This means they have been written through the inspiration of the Paraclete using words, which have varied meanings, interpreted accordingly, depending on which level of consciousness the reader has achieved.

The *art* of Applied Meta-Physics is to 'conceal, to reveal'. The Wisdom the writers concealed protects it from those who would destroy the writings, *and therefore destroy themselves*, until a time when the human family matured and awakened and realised its need.

The scriptures are like an offer to an addict deep in the throes of ad-diction, rejecting what they really need most, and lashing out, because they have lost control of their own minds. In the height of the loss of control the addict attacks those seeking to help them and would destroy them.

The parables, analogies, codes and koans in the Helios Biblia have preserved these writings, as the power of the Word concealed within them has worked in the hu-man consciousness to do exactly that.

**Applied Meta-Physics is the Key** opening the way to comprehending their riches and applying the Wisdom revealed in one's life and proving the truth thereof.

There is a simple fact of life:

We are all created equal, in that we are all the offspring of God, and we form our lives by the thoughts, words, deeds we think, speak and do. The equality is that the Divine Law is no respecter of personalities.

We are all held responsible for everything we do, and our body either regenerates or degenerates according to the motives of our hearts. If we seek to rule others, we are using the life we have been given to express ourselves contrary to the Divine Law, and this is slow and definite suicide.

If we submit to the will of another, this too is slow suicide and contrary to the Divine Law.

The LAW IS!

It is the Doorway to Everlasting Life.

PEACE.
