APPLIED META-PHYSICS, THE SCIENCE OF BE-ING AND KNOWING

ESSAY: LENT—2022: ASH WEDNESDAY

Ashes and repentance

Repentance means to stop be-
have-ing in ways that lead to
death, and turn to the Light with-
in, which is the Light of Ever-
lasting Life; the Light of the Solar
Plexus.

The material world and its po-
litical systems are the result of
the sleep of death.

Those forcing these systems on
the hu-man family are ignorant
of the Divine Law living within
us, and in their ignorance of the
Law, seek to make their own
'laws'.

Of course, men cannot make
laws, the idea they can is a men-

tal delusion. Yet, men still seek to make 'laws' and because they have 'made them' they are deluded into thinking they are above them! In this way they sustain the sleep of death.

So, there is no logic in their actions, it's a self-delusion...

Yet, WE need order!

The challenge is to create and maintain order in a world with eight billion souls.

There is but one WAY, and that is by using the power of the Word to awaken everyone from their hypnotised state, where they have been persuaded, that death is inevitable.

Some of those still asleep say that the desire to live forever is a "delusion" where the individual is "afraid of their own mortality" yet, this "feeling", as I've been told it is, is the result of a severe

lack of Self-knowledge.

In short, those who say that death is inevitable have not gone within and connected with the stream of Life, which flows directly from the throne of God. This stream imparts the "life in abundance" the I AM/Jesus came to teach us about: "I come that you may have life, and have it abundantly".

The I AM is THE ONLY WAY to establish peace on earth. The "I AM" within each of us restores the centre of volition and decision making and *total responsibility for our actions*, to each individual. It teaches HOW the body is our Book of Life, and HOW we degenerate when we disregard the in-structions of the Decalogue, and HOW we ReGen-erate when we receive and live by their in-structions.

The world is entering the 'Lenten Season', which starts today. Lent is a time of 'fasting and prayer', so the deeper import of the 'fast' is to purge from mind every idea that is not in alignment with the divine law. These ideas are like rocks over the mouth of the Well of Being within us, and their presence limits the flow of Spiritual power within us.

As we call these self-limiting ideas to mind, we purge them, we overcome them, and every time we overcome a self-limiting idea, we are removing a rock from the mouth of the well, and the flow of the Divine Energy within us increases.

This is a real and tangible experience.

Once we have removed a rock, a stumbling block a self-limiting

idea, the living water within us increases, flowing through us, imparting more peace of mind and restoring health where required.

Then there is the 'prayer'. Fasting is like stripping out a house ready to redecorate it, prayer is manifesting the new state, which **ALREADY** exists in the super-conscious realm of mind, and since we've removed the stumbling blocks of the old degenerate states of mind, the divine energy flows through us, making the envisioned state manifest.

"Pray believing ye have received and ye shall receive."

As we 'fast and pray', The living water, the in-spiration, we receive every day increases and we grow stronger.

As we 'fast' from self-limiting ideas, and 'pray' by establishing

our highest ideals in our hearts and mind and make them manifest, we grow from strength to strength.

At the end of FORTY days, (lent does not count Sun-days) the I AM within each of us is very well established and imparts its spiritual power and understanding. We have grown steadfast in the NEW WAY. This is the Risen Christ. “Behold, I make ALL things NEW”.

This is the ongoing ReGeneration. The degree to which we experience the spiritual power of the risen I AM, is relative to the work we have done throughout the year, as the power accumulates and is focussed over the Lenten period. This, and being in alignment with the uni-verse, the One Song of God, which is always ‘singing’ our being into perfection.

For us to *"be ye perfect, as your father in heaven is perfect"*, we must purge every idea from mind, which inhibits the free flowing expression of the I AM within us, and be steadfast in its truth.

What we are doing during 'lent' is lengthening the periods of awareness, of unity with God, and shortening the periods in between, when we have lost sight of our at-one-ment.

Each day during lent, I shall share an essay to help facilitate the ReGenerative process, so that each reader may grow from strength to strength.

Our objective is to use this time productively, and to consciously unite with our Spiritual body, and experience its power flowing into our lives.

The "Promised Land" is the

‘material’ body, we are to take possession of it, we are to purge the inhabitants, the established destructive ideas, habits, addictions, and all other ideas, which inhibit spiritual growth and peace.

We are to establish ourselves in the promised land, we are to “go forth and multiply” to manifest our highest ideals those ideals that sustain our awareness of the fact that we live right here, right now, in the midst of the Garden of mind; the Garden of God.

“In the world ye shall have tribulation: but be of good cheer; I have overcome the world.”

So, as each day unfolds, make a concerted effort to identify and ‘fast’ from the thought-words, deeds, habits and addictions, which inhibit you from expressing your highest ideals, which are

the blueprint of your being.

Applied Meta-Physics is the oldest Science. It is the study of who we are and why we are here.

It is sometimes called 'The Science of Making the Ideal Real,' because it identifies in concrete terms the abstract workings of the mind, and teaches the steps every eternal idea passes through in transition from the plane of the eternal spiritual world, to become manifest on the earth plane.

The sacred writings we have inherited are meta-physical in nature. This means they have been written through the inspiration of the Paraclete using words, which have varied meanings, interpreted accordingly, depending on which level of consciousness the reader has achieved.

The *art* of Applied Meta-Physics is to 'conceal, to reveal.' The Wisdom concealed protects it from those who would destroy the writings, *and therefore destroy themselves*, until a time when the human family matured and awakened and realised its need and the value of these works.

The scriptures are like an offer to an addict deep in the throws of ad-diction, rejecting what they really need most, and lashing out, because they have lost control of their own minds. In the height of the loss of control the addict attacks those seeking to help them and would destroy them. The parables, analogies, codes and koans in the Helios Biblia have preserved their message, as the power of

the Word concealed within them has worked in the hu-man consciousness to do exactly that.

Applied Meta-Physics is the Key opening the way to comprehending their riches and applying the Wisdom revealed in one's life and proving the truth thereof.

There is a simple fact of life:

We are all created equal, in that we are all the offspring of God, and we form our lives by the thoughts, words, deeds we think, speak and do.

The equality is that the Divine Law is no respecter of personalities. We are all held responsible for everything we do, and our body either regenerates or degenerates according to the motives of our hearts.

If we seek to rule others, we are using the life we have been given to express ourselves contrary to the Divine Law, and this is slow suicide.

If we submit to the will of another, this too is slow suicide and contrary to the Divine Law.

The LAW IS! It is the GREAT equaliser and liberates everyone from death. It is the Doorway to Everlasting Life.

PEACE.
