APPLIED META-PHYSICS, THE SCIENCE OF BE-ING AND KNOWING

ESSAY: WISDOM

**"Wisdom is knowledge of things hu-man and
divine and of their causes and effects."**

The hu-man family needs Wisdom, it needs it because without it, it is lost in the material and psychic web of darkness, which creates the appearance of division.

The division is first internal, it is why each person feels divided from the Spirit, which animates us, and from each other.

Feeling divided from each other, people feel alone and insecure, because we live amidst a dark Race Thought Atmosphere, where there is little unity. Unity is synonymous with security.

Through feeling a lack of security, men seek to feel secure by accumulating and acquiring money and 'possessions'... and this is another example of eating the fruit of the tree of the knowledge of good and evil, which leads to death. The fruit of this tree once digested entraps the mind and cuts it off from Wisdom.

While Wisdom is necessary to illumine the mind, Love illumines the heart. Love does what is necessary, it does not wait for a reason. It sees a need, and inspires the individual to do what is required to do.

When Wisdom and Love are married in consciousness, an individual is established in the higher mind, and the way is opened for continued growth and ReGeneration. ReGeneration leads to Everlasting Life.

The idea that “everyone must die” is the fruit of the tree of the knowledge of good and evil, the poison of which has hypnotised the whole human family, many of whom would rather believe the lies of so called ‘religious leaders’ than open their hearts and minds and drink the Living Water of the Gnosis, which clears consciousness and restores unity with God, and realisation of the Kingdom within.

Faith is our ability to pierce the veil of the material world and read from the blueprint of the Spiritual world. Gnosis is the Divine Knowledge we learn and retain when we return to this world of appearances. Wisdom is knowing when and where to use the Gnosis, therefore it is the “knowledge of things human and divine, and of their causes and effects.

Our Words increase with power when charged with Wisdom and Love. When these are married within us, and we speak in alignment with the Living Law, then our Words are charged with Spiritual power.

The early disciples knew how to pray and invoke this power, then they went around the towns and cities preaching, and *their Words, charged with power, did the healing work.*

We ALL embody this power, WE all have the ability to tap into the Spiritual world/realm and drawing on the Spirit, charge our Words with Wisdom and express them through Love, and produce what is called Grace.

Grace is when the Spirit flows through us in abundance, creating immense beauty and joy. Grace, when it flows through the body, is like electricity, flowing through us, rearranging cells and atoms, and healing us.

When we are taught about the Holy Spirit being “The Comforter”, we are being taught the flow of the Spirit through us becoming real and tangible to our mind and feelings.

As electricity only flows through efficient conductors, our body is the ‘conductor’ and Faith, Love and Wisdom enable us to develop the

quality of character, which is entrusted with the greater powers of the Spirit.

Materially minded people, striving for the Spirit for selfish reasons are always disappointed, and this is why many resort to violence to have their own way. They are short-sighted, selfish and greedy, and the higher powers of the Spirit does not gift itself to these states of mind.

Wisdom is of the Spirit and is inherently Wise, and seeks out those who have invested the time and effort to become Wise.

Our first steps in becoming Wise are in aligning ourselves with the Divine Law, and while many commentators and writers have much to say about the Decalogue, the reality is that it is written within us, the 'two stones' of Moses being the heart and the mind.

In the parable related to us, Moses receives the Law on Mt Sinai, and this mount is also called Horeb, and we each go into the silence, in *solitude into the higher mind* and receive the revelations it has in store for us.

The Commands are the higher mind teaching the lower mind, so that the lower can be purged of its sin, and the fragmented aspects

of consciousness united and healed.

Contained in the Commands and the story of Moses receiving them is great Wisdom, which when understood, will relieve this world from every false law, men are deceived into thinking they can make. All men's so called 'laws', lead to the grave, they are either the result of ignorance of the Divine Law or a deliberate form of deceit. This is because they are formed from fear and the desire to rule others, when the Living Divine Law, operates on its own time scale. Men have created these 'laws', due to a lack of Wisdom and impelled by impatience for so called 'justice'. Wisdom teaches us what to do without the need of the compulsion of so called 'laws' enforced by fear and the threat of violence. The Decalogue is the Doorway to Everlasting Life; one must align with each precept, and then Wisdom is revealed.

When Moses received the Stones of the Law, they were "*written by the finger of God*", and *this means they are an inherent part of us.*

When Moses comes down the mountain his brother and the people are dancing around the golden calf... they are preoccupied by materialistic ideas, and especially commerce.

Moses is 'angered' and breaks the stones, then burns the golden calf and grinds it to powder and throws it into the water and makes the Israelites drink it.

The 'breaking' of the stones is the dissolution of understanding the Divine Law in each individual, when the mind is turned towards materiality and falls under the spell of the sensual (333) plane of consciousness, it loses contact with the higher mind (888). Disorder and a bitter life is the result.

Moses in burning the molten calf and grinding it to powder then making the people drink it. This is teaching us that over time our attention to materiality wanes, and as it does so, its remnants we must 'drink' and the water being bitter, the bitterness awakens and heals us—it purges the evil from our hearts and minds.

All of this is teaching us that when we ignore the Living Law, everything in life (the river) is bitter. Moses (each of us) must then rewrite the Law on two more stones. That is, we must become fully conscious of the Law and write it into our own hearts and minds and live by it. As we do not breathe, God breathes through us, this is our responsibility to align ourselves with the Law, the text states:

“This is the covenant that I will make with them after those days, saith the Lord, I will put my laws into their hearts, and in their minds will I write them;”...

So, as we align with the Living Law, carry it within us, observe it in our daily activities, it is by the power of the Spirit we are able to comprehend and live by its Wisdom, which guides us, as to the **Way** to live...

To reiterate, when we observe the Law, bear it in mind and establish it in our hearts, we do so by the power of the Divine Breathe breathing through us, *so it really is the work of the Lord.*

As we live each day our alignment with the knowledge of the Law guides our decisions, and the Law always guides us towards an increased consciousness of Life, Health, Peace of Mind, and Social Harmony.

That is, everything we desire, which is of the Higher Mind, is infolded within us, in our highest ideals, which are the Spiritual seeds we are each to sow and cultivate for our own Well-Being and Spiritual development.

Like all aspects of consciousness, Wisdom grows incrementally, and while we may not use the word 'Wisdom' on a daily basis, we have a whole selection of words we use which

are the fruit of the work of Wisdom within us. We use words such as 'Intuition' as the Intuitively Wise (999) aspect of mind becomes more tangible to us; we use 'Judgement', 'Timing', 'Reasoning', etc. All these and more are our own ways of turning to look within and understand what to do next. The definition I shared at the opening of this essay "Wisdom is knowledge of things hu-man and divine and of their causes and effects", is as I've stated in other works, a far reaching and comprehensive definition of Wisdom, which if you memorise it and start to live by it, you will grow more Spiritually conscious.

Wisdom is being aware of the Divine Law, which is alive and constantly operating, even though the actions of the majority of people does not confirm this. When we Love our neighbour, as we love ourselves, Wisdom is there to guide us, and teach us what to say and do. When we grow into a constant awareness of Wisdom and Love's power, we feel the peace "which passes understanding", because it is the Grace of the Spirit flowing through us, comforting us, and re-minding us of God's presence.

As we are constantly reminded, reminding ourselves and each other, the Light within us

increases, and becomes a permanent aspect or foundation of our renewed character. We are all going through this process of renewal. Due to the deep hypnosis of the Race Thought Atmosphere, some reject that such a thing is happening, yet, the very fact they are alive and breathing means the Divine Law is working through them to teach them the best lesson, in the best way.

The Divine Law governs all our lives. When we are aware of this, we have received the necessary Wisdom, which teaches us to avoid the contentions of the world and its Race Thought Atmosphere, and live according to the precepts of the Law. We learn every day. Everything which happens is designed to teach us, offer us an opportunity to make a decision, and, as we live in alignment with the Law, it guides us into consciousness of the abundant life promised **for us all**.

We are each to prove ourselves trustworthy, and as we ascend through the planes of mind, the sensual, the serpent coil, the desire, the lower mind, the cross, the higher mind, the intuitively wise mind, to the Conqueror, we grow stronger and wiser at every step. Each of the 'commands' are the higher speaking to the lower mind. They are a MAP for the lower

mind to follow, to reach the LIGHT.

This LIGHT burns within every person's Heart. It is the 'Burning Bush' on top of Mt. Sinai, from where God speaks. This is the Solar Ganglia, the Solar Plexus, The Heart Chakra, the bundle of nerves radiating from the back of the heart throughout the body carrying nerve impulses, carrying ideals and ideas, words thoughts and impulses as a freight train carries cargo. All these determine our behaviour. And remember, the whole purpose of Religion is to attain Self-Mastery; total Self-control. And when Wisdom and Love are enthroned in our hearts, they charge every impulse, every thought-word and deed with Spiritual power and the inner Fyre of the Heart is kindled imparting a tremendous vibration, which is more beautiful than any other sensation it is possible for the human body to experience. When the early disciples discovered this, Wisdom taught them that as they preached the Good News, the 'Gospel' that is 'God's Spell' to others, they kindled and kept the inner fyres burning, and this Spiritual flow of power comforted them and healed those who received it in good faith. Thus Wisdom is *"Proved right by her deeds"*.

Applied Meta-Physics is the oldest Science in existence. It is the study of who we are and why we are here.

It is sometimes called 'The Science of Making the Ideal Real', because it identifies in concrete terms the abstract workings of the mind, and teaches the steps every eternal idea passes through in transition from the plane of the eternal spiritual world, to become manifest on the earth plane.

The sacred writings we have inherited are metaphysical in nature. This means they have been written through the inspiration of the Paraclete using words, which have varied meanings, interpreted accordingly, depending on which level of consciousness the reader has achieved.

The *art* of Applied Meta-Physics is to 'conceal, to reveal'. The Wisdom the writers concealed protects it from those who would destroy the writings, *and therefore destroy themselves*, until a time when the human family matured and awakened and realised its need.

The scriptures are like an offer to an addict deep in the throes of ad-diction, rejecting what they really need most, and lashing out, because they have lost control of their own minds. In the height of the loss of control the addict attacks those seeking to help them and would destroy them.

The parables, analogies, codes and koans in the Helios Biblia have preserved these writings, as the power of the Word concealed within them has worked in the hu-man consciousness to do exactly that.

Applied Meta-Physics is the Key opening the way to comprehending their riches and applying the Wisdom revealed in one's life and proving the truth thereof.

There is a simple fact of life:

We are all created equal, in that we are all the offspring of God, and we form our lives by the thoughts, words, deeds we think, speak and do. The equality is that the Divine Law is no respecter of personalities.

We are all held responsible for everything we do, and our body either regenerates or degenerates according to the motives of our hearts. If we seek to rule others, we are using the life we have been given to express ourselves contrary to the Divine Law, and this is slow and definite suicide.

If we submit to the will of another, this too is slow suicide and contrary to the Divine Law.

The LAW IS!

It is the Doorway to Everlasting Life.

PEACE.
