# APPLIED META-PHYSICS, THE SCIENCE OF BE-ING AND KNOWING

## ESSAY: IMMORTALITY

Many people agree that we are the embodiment of an immortal Spirit, yet, when we open a discussion about this, it appears that most look *forward* to continued life on one plane of existence or another. Few seem to give much thought to the reality, that if we are immortal Spirit, where have we lived before, what experiences have we had and very importantly, why, when we are born on earth are we (mostly) oblivious to our previous lives and characters?

Answers to the many questions relating to who we are, why we are here, what is the purpose, etc., are essential to our peace of mind and to our happiness. Also answers to such questions as to why does, the human family struggle with sustaining unity and peace and social harmony.

The answer to these questions, lies in overcoming the ignorance of our own nature, whereby, we experience an intense flow of our

own Spirit, which awakens us out of the sleep of death.

The 'sleep of death' is the lowered state of consciousness, which is the result of the fruit of any idea or frame of mind, which sustains the concept that death is inevitable. It is the fruit of the lower (666) mind.

There are many secondary ideas, which sustain the idea of inevitable death and yet, few people are speaking about the POWER that gives every idea Life and expression. In the world we speak of 'life and death', as though they are opposites, yet the conversation should really be about *birth and death*.

Life is an omnipotent principle, it is omnipresent, and omniscient. It is the POWER, which brings every idea to fruition. So, the idea of 'death' is brought to fruition by the power of Life. This is why our forebears taught that "Death is being swallowed up in victory" - because they had awakened from the sleep of inevitable death and attained to the LIGHT OF LIFE. They had found the source of Life within themselves, and increased its flow, its intensity, and this energy, washed away the error thinking, which had darkened their minds.

This same darkness binds the whole human family in the sleep of death. It is called the 'sleep of death' because it is a state of darkness blanketing the mind, blocking out perception of the LIGHT and convinces the mind, that death is inevitable.

Yet, this blanket idea itself can only be sustained by LIFE! As people direct their thoughts, they magnify what they are thinking about. These thoughts then condense and are distilled and become manifest. In many occult schools this is called the process of 'emanation' from the God-head, the world of the Spirit, through the various planes of consciousness or 'worlds' (whirls of energy) and then becoming manifest on earth.

Together we know it all. We know ALL Truth, so WE need to start these conversations again, WE need to discuss where we've been all these millions of years, what experiences we have and where we are going, and how we are to overcome the very idea of 'millions of years' and attain to the eternal moment of 'now'. This is *not* a contradiction, it is rather a state of *contradistinction*, where two seemingly opposites can exist together.

When we live in the eternal realms, we do not have the mist of 'time', which we interpret here as a measure, yet, when we are on this plane talking about eternal life, we use our own vocabulary to translate what we've experienced.

In my own visions, and dreams, including travelling through various realms during out of the body experiences, where I've been transported to different planes, I AM shown events of this world, which have not yet taken place, so I have NO time frame to discuss them.

When I AM shown something in the near 'future' according to our calendar, I seek a frame of reference, so I can understand it. I have had countless of these experiences and they have taught me that as we think, speak, eat, drink and live on this plane, we are influencing the psychic realm in which this world is immersed, and, we are also drawing power from the Spiritual world, which is the blueprint for the psychic world *and* this world.

The psychic world in turn has been analysed and many people have identified distinct realms within it... e.g. mental worlds, and as-

tral worlds, and other planes, all emanating from the Spiritual World which is et-ernal, that is, there is no time.

We live in a world of TIME, the very creation of a calendar is our frame of reference and more than this, a calendar tells us two very important things:

1. *We came from a state of consciousness beyond time before the invention of the calendar*, into time and as we live and move through ‘time’ we are headed towards a state of consciousness, which is at the ‘end of time’ and we are attaining to this previous state more and more every day as we strive for it.
2. We are headed to the ‘end of time’ and a state of consciousness, where no calendar is necessary.

These observations tie in with the statement:

*“And all the host of heaven shall be dissolved, and the heavens shall be rolled together as a scroll: and all their host shall fall down, as the leaf falleth off from the vine, and as a falling fig from the fig tree”.*

So, as our consciousness rises into the higher mind (888) and we *project* Life through our

renewed minds, that which we see changes, our 'environ-ment', which is the projection of the mind, is raised to the Spiritual planes, and we perceive and project that which is the blueprint of our being..

In Applied Meta-Physics I call this: *From et-ernity, through time and space to et-ernity.*

So, we once lived in a state not subject to time and our Spiritual body is ALWAYS LIVING IN THAT STATE, and, we manifest this visible body through time and space. As we cleanse the Race Thought Atmosphere of the psychic world, this world is purged too, and we see the Kingdom of the Heavens as they are.

To manifest the New World, which is et-ernal, yet new to us in our present state of consciousness, AND, which is an image we carry within us, we are to focus on dissolving the ideas preventing us from being aware every moment of the Spirit within us. We are to clear from mind, *everything that is unlike Love.*

When we *taste* Love in our hearts, we discover there is a tremendous ineffable, that is indescribable, beauty and joy, awaiting us ALL, when we awaken out of this sleep and

purge our minds of all that causes suffering,  
and we attain the crystal clear Living Waters,  
which purifies us in every way.

*“And he showed me a pure river of water of life,  
clear as crystal, proceeding out of the throne of  
God and of the Lamb”.*

The throne of God is the Higher consciousness  
within us, and the ‘Lamb’ is living the guileless  
life. As we Live inspired by God, we are in  
alignment with God’s Will, which IS the Law,  
the Decalogue, and then we experience the  
outpouring of Grace, which heals us and when  
flowing through our communities is known as  
the Agape.

‘Agape’ is the ‘Love Feast’, where, hearts are  
open and receiving the Fyre of God, which ra-  
diates in light and power comforting those  
who attain to this exalted state.

In the Tao Te Ching, we read:

*Between birth and death,  
Three in ten are following life,  
Three in ten are following death,  
And men just passing from birth to death also  
number three in ten.*

*Why is this so?*

*Because they live their lives on the gross level.*

*He who knows how to live can walk abroad*

*Without fear of rhinoceros or tiger.*

*He will not be wounded in battle.*

*For in him rhinoceroses can find no place to thrust  
their horn,*

*Tigers can find no place to use their claws,*

*And weapons no place to pierce.*

*Why is this so? Because he has no place for death  
to enter.*

Lao Tzu

Tao Te Ching - chapter 50

\*\*\*

Since the days of Lao Tzu, many people have incarnated and taught about the nature of our own Spirit. In the above passage, Lao Tzu is sharing how few people seek the WAY to LIFE, and also indicates what happens when in those who know how to *live*, the body is flooded with the Spirit of Love, which strengthens us, comforts us, and connects us *consciously* to every aspect of creation. The Spirit of Love makes us fearless.

*“Perfect love casts out all fear”.*

From our forebears we have a multitude of writings, and this has led some to think there are a multitude of ‘faiths’ and there are not.

Faith is that conscious inner connection to the Spirit, which no one can sever. It is not the name of any mainstream school of thought posing as a religion; Faith leads The Way to Everlasting Life.

I doubt if even the person who experiences the **beauty** and **power** of Faith could turn away, it is such a deep flowing connection to the World of Spirit, it is power emitting from the core of our being, it is the veritable ROCK of Self-Knowledge on which the I AM, builds the new state of being.

Immortality is the goal of creation, the Book of Genesis gives us the timeline for the ReGeneration; 6 Days, and the code is that 1,000 years, is a day. On the seventh day God caused his repose to come upon the world, and we who have been immersed in this Spiritual power and live our lives immersed have no words for its beauty, and call to everyone to awaken from their sleep, **feel the Love**, and take the necessary steps to purge their hearts and minds of all division, and the desire to exalt oneself over one's brother or sisters.

As each person experiences the Living Waters

flowing from deep within, they will come to understand what the term '**Well-Being**' really means.

This Well of Being is the ONE Spirit, which manifests **as everything in existence**. Think of the SPIRIT as LIGHT and the mind as a PRISM and the WORLD as the rays of LIGHT exiting from the prism. The manifest world is the projection of the mind.

*“Be ye transformed by the renewing of your mind”.*

This transformation is seeded in a day, when the Divine Law decides one is ready, thereafter, one needs to cultivate the seed, nurture it within themselves, and awaken from the sleep which has convinced the mind of inevitable death. True ‘repentance’ is to stop and turn around within oneself, change direction, awaken fully from the sleep of death, and to follow the Way to Everlasting Life.

To those who say “flesh and blood cannot inherit the Kingdom”, they are right. The reality is, *we are not flesh and blood, we are immortal Spirit*.

**Applied Meta-Physics** is the oldest Science in existence. It is the study of who we are and why we are here.

It is sometimes called 'The Science of Making the Ideal Real', because it identifies in concrete terms the abstract workings of the mind, and teaches the steps every eternal idea passes through in transition from the plane of the eternal spiritual world, to become manifest on the earth plane.

The sacred writings we have inherited are metaphysical in nature. This means they have been written through the inspiration of the Paraclete using words, which have varied meanings, interpreted accordingly, depending on which level of consciousness the reader has achieved.

The *art* of Applied Meta-Physics is to 'conceal, to reveal'. The Wisdom the writers concealed protects it from those who would destroy the writings, *and therefore destroy themselves*, until a time when the human family matured and awakened and realised its need.

The scriptures are like an offer to an addict deep in the throes of ad-diction, rejecting what they really need most, and lashing out, because they have lost control of their own minds. In the height of the loss of control the addict attacks those seeking to help them and would destroy them.

The parables, analogies, codes and koans in the Helios Biblia have preserved these writings, as the power of the Word concealed within them has worked in the hu-man consciousness to do exactly that.

**Applied Meta-Physics is the Key** opening the way to comprehending their riches and applying the Wisdom revealed in one's life and proving the truth thereof.

There is a simple fact of life:

We are all created equal, in that we are all the offspring of God, and we form our lives by the thoughts, words, deeds we think, speak and do. The equality is that the Divine Law is no respecter of personalities.

We are all held responsible for everything we do, and our body either regenerates or degenerates according to the motives of our hearts. If we seek to rule others, we are using the life we have been given to express ourselves contrary to the Divine Law, and this is slow and definite suicide.

If we submit to the will of another, this too is slow suicide and contrary to the Divine Law.

The LAW IS!

It is the Doorway to Everlasting Life.

PEACE.
