APPLIED META-PHYSICS, THE SCIENCE OF BE-ING AND KNOWING

ESSAY: COURAGE

Courage--A spiritual quality that enables one to remain poised and centered in God amidst great difficulties and danger. The realization that the almighty God of the universe is a spiritual presence which is constantly striving to express in and through us fills us with new courage and a fearlessness that is beyond description. "Be strong, and let your heart take courage" (Psalms 31:24).

Charles Fillmore

Tracing the etymology of the word 'courage' reveals that it derives from the Latin 'cor' and/or the old French 'couer' meaning heart, and the suffix 'age' meaning 'age' or maturity. Yet, the word is spoken of in the Psalms written a 1500 years before Latin was invented! This shows the limitations of seeking a purely intellectual answer to our questions. The Hebrew word for courage is $\gamma\eta\kappa$ = "listen and repeat". Hebrew is also 'Ibri' meaning 'from the other side' and signifies Spiritual inspiration.

So, courage is the steadfastness, which we develop, as the Spirit incrementally strengthens us, thought by thought, cell by cell, word by word, deed by deed. The Hebrew definition is particularly interesting, because when we listen to Spirit and repeat what it teaches us, we are saturated by it, and it strengthens us.

The name Simon means 'hearing' and the first disciple Jesus 'calls' is Simon Peter, who represents the faculty of faith, and this corresponds to the Hebrew. When we listen to Spirit, we are developing characteristics and qualities and faculties that are beyond the range of the 'five sense' person, and those still restricted by the five senses think those who develop the deeper faculties are either a genius or mad.

Jesus was accused of having a demon. Likewise, those constrained by the intellect and restricted by sense reasoning because they are immersed in the Race Thought Atmosphere, accuse those who have awakened deeper faculties of being "believers" "gullible" "mad", sometimes "Genius", and other such adjectives. The accusers do not realise they've been duped by their own intellect. Every time someone accuses **anyone of anything**, they are

doing the work of Satan, and Satan means ‘accuser’ (as well as a range of other meanings). To accuse anyone of anything, one must also first *think they are divided from them*, and this is another indication of the meanings of the name Satan, “the divider”.

The process of division did have a helpful origin before it became an aspect of a ‘divide and conquer’ world, and the original purpose of ‘division’ was ‘analysis’.

The intellect analyses, by dividing, and the Satan infecting and setting up his throne in the intellect via the Race Thought Atmosphere continues the divisive behaviour, ignoring the principle of all division/analysis is *synthesis*, of *analysis with the purpose of comprehending the synthesis*; *Of division to understand how we are ONE*.

So, through division, through analysis, we can learn the component parts of the ONE Song of creation, yet, Satan is the intellect having lost sight of the Universal Unity and who sets the parts one against the other. The more the intellect creates and distributes conclusions throughout the body, the more the carnal

mind becomes dominant and the less Spiritual awareness and courage one has.

Our descent into material thinking has been a long and steady one (in terms of time and history). As each generation is born into the world and immersed into an atmosphere of materialistic thinking, which permeates the mind and governs the lives of everyone.

It is, through individuals striving to understand more and more about life that the Spiritual impulses have been felt in the *heart* and draw our attention away from the intellect.

Words form everything, yet, they are passed through the intellect, and if Satan has set up his throne there, then the reader will be led astray by the dark forces and understanding will be incomplete. This is why one must persevere and it is also why, when we read any book, we do not recall much, because that which we seek to overcome is directing our reading and thinking! When one knows this, when one *understands* this, one understands why writing was developed, to capture Wisdom which would otherwise be lost as those who were wise were being murdered by those

who sought to maintain their power and the murderers were too hypnotised to comprehend what forces were controlling their lives.

When someone writes something down, they are metaphorically *nailing the word to a tree and it dies. In this state it is preserved or wrapped in swaddling clothing, that is protective elements, parables, codes, etc. Then, when someone reads the words AUDIBLY they raise them off the dead page and give LIFE to them, and as they internalise the meaning, the words, having been raised from the dead, impart life and wisdom to the reader, whom, when they act on them are transformed by Wisdom's Power and guided into the secret chambers within where all the riches of being are stored.*

ALL writing ever written anywhere has this purpose of conveying a message and increasing the understanding of those the message was intended for. In terms of the world's sacred writings and scriptures, the purpose is to convey the truth, which awakens each person from the sleep of death, not convince someone to follow a school of thought, posing as a religion, to the exclusion of others!

The Truth calls to you to look within, and to do so constantly, to go straight to *the heart of every matter and develop the ability to see and think with the heart, because all action, all behaviour is e-motion and the heart has the key to comprehending everything.*

To become illumined, the intellect must be married to the heart, then, the Spiritual power of the Heart strengthens the intellect by flooding it with Light.

When we have this inner strength, we grow more and more steadfast in the simple truth, and the truth is always simple. Is someone hungry? Feed them. Is someone in need of clothing? clothe them, is someone in need of shelter? then provide it.

Oh, how the dark forces have hijacked the human intellect and crippled it, preventing it from doing the simple acts of Love, of allowing the heart free expression—indeed the intellect is like a bullying husband, who constantly tells his wife how to behave. He has not learned or ‘eaten’ any of his wife’s attributes and allowed her Love to round out his character. He forces his will on her and so many people, are like

this in intellect and heart *and* in their marriages too! Divorces are so common, because there is no understanding of the very purpose of marriage, because it has all become an intellectual and 'legal' process and there's no comprehension of the absolute beauty, strength and power in the unity of head and heart, in husband and wife which produces the intensity of Love that is stronger than death.

"What God has joined together, let no man put asunder"

The above statement is a part of the sacrament of marriage, and what has God put together in this body temple? An Intellect, and a Heart and *all those who divorce them so they can delude themselves into thinking they can do 'what they like' and not be held responsible, live miserable lives. You can tell they are miserable because they are always seeking to force their wills on others, because they are emotionally crippled within themselves and have no Self-control.*

When the intellect and the heart are married, they constantly feed one another and strengthen one another, and the whole person experiences an increased flood of Spiritual Power,

and this translates into couer-age; Courage.

Courage, having its centre of action in the Heart, is like a fire. It radiates its Light and Heat throughout the whole person, and we call such person's 'warm hearted' and 'kind' and the Satanic consciousness is so fearful of Kindness and Courage, Love and Wisdom it seeks to eliminate them, in the world.

The nature of Satan is like all other ideas, it is self-replicating and self-renewing as long as it has a food source. Ideas are like germs, they require a surface to live on, represented by the mind, then they require food, which is materialistic thinking, then they need water, and this is the emotion they receive and then they require warmth, that is an attitude of mind receptive to them. Given all these they will continue to grow and multiply within a person, until that person has no Self-knowledge of the Higher Mind and the lower mind usurps all power and the person is sleep walking, in a deep hypnosis, which is called "the sleep of death".

Emotion is energy in motion, so as we feed these dark forces, they live through us, as us,

having hijacked the intellect... but we are not them and they are not us!

Courage derives from introspection, looking within, going into the closet of our hearts and receiving the impulse of Spirit, which is always speaking to us.

“But thou, when thou prayest, enter into thy closet, and when thou hast shut the door, pray to thy father which is in secret, and thy father which sees in secret shall reward thee openly.”

The word for closet in Aramaic is ‘tawanaah’, which means “the room without windows”. It is an analogy for the heart. This verse (part of the uni-verse-sal song) is teaching us to listen to our hearts, and be receptive, and act on what we receive inwardly and then we develop courage, because it is the Power of the Higher mind flooding our consciousness, dissolving the fear and timidity, which is the product of the lower mind.

KNOWING we have a lower mind, a carnal mind, designated numerology as the 666 mind and also the Higher mind the 888 mind and the cross, which is the 777 mind is absolutely essential towards a clear understanding of

ourselves and the process of ReGeneration we are passing through as written in the scriptures. When we dissolve the lower mind's ideas, by the power of the Spirit, we are renewed. We are not the same person. As we renew ourselves every day, we grow stronger and stronger.

"I die daily" - says Paul, and when we listen to the inner voice of the Spirit, that which dies is the carnal mind. If we do not listen to the voice of the Spirit, that which dies is our consciousness of the Spirit, this is the first death. The first death is the death of the Light of consciousness within us, where we are no longer aware of our Spiritual source. The second death is when the Spirit withdraws from a body no longer fit to be called a Temple of the Ever-Living God.

To use an analogy: Courage arises when we have a fire in the jungle keeping wild animals at bay. Courage in the Temple of the Spirit-Mind-Body unity, arises when we become conscious of, and express ourselves through the Living Flame of Love, married to Wisdom, which fusion, dissolves all darkness and fills our lives with the Light.

Applied Meta-Physics is the oldest Science in existence. It is the study of who we are and why we are here.

It is sometimes called 'The Science of Making the Ideal Real', because it identifies in concrete terms the abstract workings of the mind, and teaches the steps every eternal idea passes through in transition from the plane of the eternal spiritual world, to become manifest on the earth plane.

The sacred writings we have inherited are metaphysical in nature. This means they have been written through the inspiration of the Paraclete using words, which have varied meanings, interpreted accordingly, depending on which level of consciousness the reader has achieved.

The *art* of Applied Meta-Physics is to 'conceal, to reveal'. The Wisdom the writers concealed protects it from those who would destroy the writings, *and therefore destroy themselves*, until a time when the human family matured and awakened and realised its need.

The scriptures are like an offer to an addict deep in the throes of ad-diction, rejecting what they really need most, and lashing out, because they have lost control of their own minds. In the height of the loss of control the addict attacks those seeking to help them and would destroy them.

The parables, analogies, codes and koans in the Helios Biblia have preserved these writings, as the power of the Word concealed within them has worked in the hu-man consciousness to do exactly that.

Applied Meta-Physics is the Key opening the way to comprehending their riches and applying the Wisdom revealed in one's life and proving the truth thereof.

There is a simple fact of life:

We are all created equal, in that we are all the offspring of God, and we form our lives by the thoughts, words, deeds we think, speak and do. The equality is that the Divine Law is no respecter of personalities.

We are all held responsible for everything we do, and our body either regenerates or degenerates according to the motives of our hearts. If we seek to rule others, we are using the life we have been given to express ourselves contrary to the Divine Law, and this is slow and definite suicide.

If we submit to the will of another, this too is slow suicide and contrary to the Divine Law.

The LAW IS!

It is the Doorway to Everlasting Life.

PEACE.
