APPLIED META-PHYSICS, THE SCIENCE OF BE-ING AND KNOWING

ESSAY: PATIENCE

"In your patience, possess ye your souls".

Patience--An attitude of mind characterized by poise, inner calmness, and quiet endurance, especially in the face of trying conditions. Patience has its foundation in faith, and it is perfected only in those who have unwavering faith in God. "The proving of your faith worketh patience" (James 1:3).

The Revealing Word

Charles Fillmore

The dictionary definition of Patience is: Good-natured tolerance of delay or incompetence.

I look forward to the day when all these dictionaries are written with a great deal more sincerity and insight as to the meaning and power of words.

The practice of breaking words down to identify their deeper and inner meaning and source is not taught in schools, we are referred to 'dictionaries' and nearly all dictionaries in the

educational system were written from an intellectual perspective. The result is a severe lack in the essential meaning and power of Words.

I was first introduced to the dissection of words by a school teacher in primary school. She was teaching us how to learn how to spell 'big' words by breaking them down and memorising each part. Although it was over 55 years ago, I still remember the word she used:

Together.

This might not be a 'big' word for a grown up, yet for a six year old child it is! She wrote the word on the blackboard and then wrote it out again below the first word, this time she wrote:

To-get-her.

She had already taught us 'to', 'get' and 'her' and she was using established learning to create an association. This example has stayed with me ever since then and it seeded a life-long process of being aware of the composition of words and their use, and their choice and their power to direct our lives. To this day, I have hundreds of words broken down even to

their letters, and identifying the original language and the letters and their roots and what the esoteric meaning is, particularly in Hebrew.

ALL of the ancient languages are very important, because *they seeded* all the words we speak today. Every letter ‘bottles’ up energy and directs it, according to its placement in a word and the meaning of the word and the position of the word in a sentence.

This we call ‘spelling’ and as more people are realising, every time we speak, we are ‘casting a spell’, *both for our listeners and for ourselves*. With every conversation, we are either awakening each other up, or hypnotising more deeply.

We speak in ‘sentences’, and we recognise that we go through ‘phases’ of behaviour, and experiences. How many people recognise the connection between their present life’s circumstances and their past words—where they sentenced themselves to any given form or phase of behaviour.

We ALL have this power to form our lives to a

greater or lesser degree, depending on how closely we are aligned with the Divine Law—the Decalogue.

The thing is, we are not taught the real power or meaning of words because the so called educational system is also saturated in the influences of the dark forces of the Race Thought Atmosphere, and the Satanic consciousness, which we are to overcome.

When the Human family fully comprehends the power of the Spoken Word, and the fact that our bodies are our book of life, we shall live in a very different world—a world of absolute delight. The Garden of delight; the garden of Eden.

What has prevented us thus far, is impatience, and impatience is an aspect of greed, and greed is an aspect of selfishness, and selfishness derives from ignorance of our higher SELF, and our common-unity as a human family.

Patience is the ability to see with the mind's eye, that you have sown the seeds for the experiences you desire to have, you have watered

them and are cultivating them and *know* that because you have done all these things, the seed will bear its fruit in due season. Patience enables us to stay focussed and not turn right or left and get tossed around in fear, doubt and anxiety. It is the fruit of reminding ourselves we have done everything required of us, by the Divine Law, and despite appearances to the contrary, our seed ideas, sown into our hearts and minds, will bear their fruit in due season—if we faint not. Perseverance is closely akin to patience.

There is so much impatience in the world. Someone awakens one morning and they are ill, then they go to the ‘Dr.’ and look for a ‘fix’. This is impatience, they do not understand the illness is a gift, a call to action, a call to change, they are caught up in the feeling and seek to be free from it, and are very impatient to do so. As a result they submit themselves to all sorts of inappropriate treatment, where sometimes those claiming to have a solution, really do not know as much as they claim, or are as skilled as they make out to be. In their impatience to get ‘fixed’ the PATIENT rushes headlong into a situation and gives their power to an ‘authority’ outside of themselves and this is

never a good idea. YES, some people are assisted—and greatly. Many people are helped in many ways, yet, when the ‘authority’ is claimed by the ‘Dr’ this is great error. The reality is, the very best ‘Dr’s’ realise they can only work with the body’s intelligence and coax it to do the healing.

Patience is a virtue, it is the result of the Spirit of life increasing its flow through us, imparting steadfastness, the ability to not get roped into adverse situations and lose one’s temper.

Many people wonder at the state of the World and if we are every going to experience the peace and joy everyone feels deep in their hearts that life should be. The answer is a resounding yes, because the answer is within every person and as the Word is spread of how to gain SELF-control, this is exactly what will happen, and the Divine Law will produce the ‘greater things’ sought after by those needing seeding them

This is a certainty because the seed of our salvation was sown into our hearts ‘at the fall’, That is, when we lowered in consciousness and because more material and carnally minded,

the seed of the Divine Life within us, did not depart, it diminished in strength, and as a result the material and psychic forces around us infected us, and have controlled our lives for thousands of years. NOW, we all know that we have a flame of Life in our hearts and as we invoke the Spirit to fan the flame higher and higher, we are reassured and find inner peace and one of its attributes is patience.

We can be likened to people waiting in a queue, and the queue is moving slowly and then someone is caught up in this fact and loses their temper. This 'losing one's temper' is really a weakening of the mind and allowing the Race Thought Atmosphere to infect it and cause a reaction.

Where there is Patience, one recognises that there is Divine Order in every situation and then one waits one's turn... then, while waiting an old friend one has not seen appears! Or, while your mind re-lux-es, and you have a great idea, or, or, or... there is no downside to being patient and in the opening quote Jesus tells us "*in your patience possess ye your souls*". The reality is that few people have Soul consciousness, this is why the question of

whether we have a Soul or not, is even discussed, because those asking, do so because their soul flame is so low they cannot feel it.

In the Book of Genesis, Adam has a threefold 'creation' - first out of the earth, then receives the breath of life, *then he becomes a living soul*. This is the process Jesus is referring to. First out of the earth, we are formed by our worldly experiences. Then we receive the breath, that is we realise our own ability to conceptualise and form the world. Then, through ever deepening ability to conceptualise and know ourselves, we are finally crowned with Soul.

A few sentences in a Book, yet, their message spans six thousand years, where the process continues... and each advancement is an aspect of the ReGeneration, where this corrupt nature, which is so, because it has been poisoned by the Race Thought Atmosphere, is gradually replaced with an incorruptible nature, as we align ourselves with the Divine Law and the Spirit percolates up from hidden springs within us, permeating every cell of the body and transforming us in every way.

The person who is ill, became ill through a gradual process, of eating, thinking, speaking and low quality food-thought-words-and deeds. Illness never arrives for 'no reason'. There's always a cause, and we have the ability and responsibility to ourselves, and each other, to identify the causes and change them.

While a person grows ill, this too is a gift, because it carries with it a message to change behaviour, to pay more attention, to be more caring, to nurture oneself, and look after our body temple.

When we 'repent' that is; 'turn around within ourselves', and change thought-words-deeds, and start to feed the desire to change our lives, patience is essential, because, as we grew ill incrementally, we heal at the same rate, or if more conscious, healing can accelerate. Whether we degenerate or ReGenerate our blood flows at the same rate. So while degeneration is the result of intoxication of many types, ReGeneration is the result of purification of many types. Patience is KEY.

This is where we must understand that while the intellect is 'lightening quick', the emotions

and the process of healing is a much slower one. THIS HAS A PURPOSE, PAIN is burning into our mind a vivid lesson or lessons, which are designed to teach us never to go back to the same behaviour. The PAIN is the burning of the bridges, which psychologically keeps us on the Spiritual side of Life and prevents us from crossing the river again to participate in degenerate soul destroying behaviour. WHEN one is aware of the inner fyre, one guards it, one nurtures it, one values it *above everything else in creation!* One seeks to invoke the flame and live by the light and warmth it radiates from within us, purging the dark forces and all the degenerate ideas they fed, and as the mind becomes clear, we make better decisions, and grow stronger as the Light of truth imparts its power to us, eventually dissolving all darkness so we live move and have our being *consciously in the flame of our own Soul; our spark of God.* If one goes to a museum, where they restore ancient paintings and artworks, one will see the very *epitome of Patience* at work... let us each take the same care and develop the same type of patience, as we renew our hearts, minds and bodies, igniting the flame of the Soul.

"In your patience, possess ye your souls".

Applied Meta-Physics is the oldest Science in existence. It is the study of who we are and why we are here.

It is sometimes called 'The Science of Making the Ideal Real', because it identifies in concrete terms the abstract workings of the mind, and teaches the steps every eternal idea passes through in transition from the plane of the eternal spiritual world, to become manifest on the earth plane.

The sacred writings we have inherited are metaphysical in nature. This means they have been written through the inspiration of the Paraclete using words, which have varied meanings, interpreted accordingly, depending on which level of consciousness the reader has achieved.

The *art* of Applied Meta-Physics is to 'conceal, to reveal'. The Wisdom the writers concealed protects it from those who would destroy the writings, *and therefore destroy themselves*, until a time when the human family matured and awakened and realised its need.

The scriptures are like an offer to an addict deep in the throes of ad-diction, rejecting what they really need most, and lashing out, because they have lost control of their own minds. In the height of the loss of control the addict attacks those seeking to help them and would destroy them.

The parables, analogies, codes and koans in the Helios Biblia have preserved these writings, as the power of the Word concealed within them has worked in the hu-man consciousness to do exactly that.

Applied Meta-Physics is the Key opening the way to comprehending their riches and applying the Wisdom revealed in one's life and proving the truth thereof.

There is a simple fact of life:

We are all created equal, in that we are all the offspring of God, and we form our lives by the thoughts, words, deeds we think, speak and do. The equality is that the Divine Law is no respecter of personalities.

We are all held responsible for everything we do, and our body either regenerates or degenerates according to the motives of our hearts. If we seek to rule others, we are using the life we have been given to express ourselves contrary to the Divine Law, and this is slow and definite suicide.

If we submit to the will of another, this too is slow suicide and contrary to the Divine Law.

The LAW IS!

It is the Doorway to Everlasting Life.

PEACE.
