APPLIED META-PHYSICS, THE SCIENCE OF BE-ING AND KNOWING

ESSAY: ENERGY Part I

ALL LIFE IS ENERGY. Infinite energy beyond the scope of comprehension of the mind. Yet, the mind is of the same substance, the same energy, and we are uni-verse, one-song. There is not “the universe” as is popularly spoken of. People say: “I intended this... I wanted that... but *the universe decided differently*”. This is an error in thinking, as everything is governed by Divine Law, and the whole of existence is a process, on this plane, of ‘sowing and reaping’ with the Divine and LIVING Law at the heart of every decision, *working to teach every one of us, the best lesson in the best way.*

While a person ‘intended’ one course of action, and another thing happened, this ‘other thing’ is *the fruit of that person’s or persons’ own previous thought-words-and deeds.* The timing of the events is intimately connected with a person’s motives, desires, their past behaviour, and the lesson each needs to learn.

The workings of the Law are like the reverse

side of a Gabbah or Tapestry, where the weaver has criss-crossed the threads of the material across the reverse side, and these are hidden from view. Although hidden, *we know they are there, or the pattern on the face of the Tapestry could not exist.* Likewise with our earth plane of consciousness, without the working of the Divine Law, operating through us, and calculating everything, Life on earth could not exist. This brings us to the question of ‘free will’. IF everything is governed by Divine Law, then we do not have free will. Every action is the fruit of a previous action, and the chain of events reaches right back (in terms of ‘time’) to events beyond living memory.

What we *do have is choice.* We can choose in any given moment, according to the understanding we have developed and our Spiritual inspiration, and even then, while it appears we have this choice, there must be an element of the Divine Law integrated into every thought-word and deed. When we are ignorant of the Divine Law, we go through life thinking ‘things just happen’, that there is no real order. Yet, this cannot be true either, because all energy is governed by intelligence and intelligence is an aspect of the Divine Law!

In our Script-yours, we have the ‘Old Testament’... and do not think of this ‘old’ as meaning in any way outdated! No, it is called ‘Old Testament’ because it teaches the phases of consciousness a person is going through to come into an awareness of the Divine Law, learn how to align themselves with it, and then *use it to liberate themselves from using the thought-word ignorantly, which produced suffering and illness, disease and death in the past. Testes is a reproductive gland, and ‘ment’ is mind. Our Sexuality and our mental health are totally integrated on all levels of consciousness / planes of mind!*

When a person is transformed through learning to align oneself with, and live by the Divine Law, they are entering into the ‘New Testament’.

The ‘Old Testament’ is code for: *‘The Old Enslaved and degenerate Will’* and refers to those not aware of the inner process of ReGeneration at work within them, and who are caught up in the world of appearances, and who struggle through life ignorant of the connection between their sexual activity and their

mental health.

The Old Testament is a deeply profound collection of text books teaching us about our *own nature*, and how we are suffering because of ignorance of said nature, and through the misuse of the powers we are integrated with, we degenerate.

What we call 'energy' is a blanket term for many types of power. Like a water jet flowing through a shower rose, or colander, there is ONE SOURCE, split into many streams or energy, on various planes, and we interact with them every day... and the intelligence, which sustains everything, is available for us to tap into and learn from. It is omnipresent, and *it is the source of all life*. As we observe each stream, on the various planes, we follow them back to the source. The source we call 'God'.

Our forefathers who wrote these scripts, did so from *experience*. They wrote down what they *experienced on the inner planes*, and all the parables, riddles, stories, koans and codes, conceal the deeper meaning, awaiting *us to awaken out of the hypnosis caused by the glamour of this 'materialistic' world*.

ALL of the characters in the various holy scripts, are representative of Cosmic Energies. They do not represent ‘different ‘gods’’, even though they may be named as such! Calling these energies ‘gods’ is to lock out the insincere mind, while the sincere mind penetrates into the mystery and *sees clearly* as it is purged of materialistic thinking.

Materialistic thinking is where the glamour of the *forces of development* are manifest, and the mind is caught up in the material manifestation, and seeks to use personal power to manipulate them, for its own desires.

The classic definition of materialistic thinking is: *“The view that all facts (including facts about the human mind and will and the course of human history) are causally dependent upon physical processes, or even reducible to them”*.

If one has a few out of the body experiences, lucid ones, and travels through the mist of time and sees events in their own ‘future’, one can prove this definition a grave error for oneself.

Energy is life, malleable life, and manifests as everything. WE have the power to direct all energy via the Spoken Word, if we are not impaired, having an inability to speak for some reason, or being restricted intellectually. Even intellectual giants, debar themselves from the full power of the word, because power is 'e-motional', (used to describe concentrated energy producing effects) and requires emotional intelligence to be developed to a given stage before the powers of the higher mind are made manifest. We have to earn these powers by proving ourselves knowledgeable in alignment with the Law and trustworthy doing no harm, (Ahimsa).

Of course, what we are discussing here, is what we're discussing in all the essays, the power of the Word, which diminishes when we are not in alignment with the Divine Law, and increases as we align within it and purge our hearts and minds of every desire to do evil. We do violence every time we are out of alignment with the Divine Law, and our work is to learn the Law and align with it, and USE IT, daily to Regenerate.

As we live, we are animated by this ONE energy, and due to a lack of understanding that we are all ‘jets’ of ONE STREAM, formed by vibration, then the materialistic outlook of the lower mind (666) creates the mental delusion of division.

In a very simple explanation, a single sperm and an ovum are lowered vibration of LIFE, each is a form of nucleus of intelligence. When they meet and *meld*, they both become one and a new element is created on the so called ‘physical plane’. The intelligence then increases and multiplies (go forth and multiply) and each cell splits, and then splits again, until we have hundreds of trillions of cells, lowered in vibration from the original source, yet, embodying the same intelligence *and potential*.

As we are born into the world, grow up, develop conscious awareness, and look out on the world, we are not old enough to conceptualise, so we identify with the world and its lowered vibration and consider ourselves ‘OF the world’ and ‘similar to it’. We are not, we are Spirit. Spirituality is *understanding that everything we see is energy in form, a ‘bottled’ up idea, teaching us its nature, when we look*

beyond the surface to the idea it embodies. ALL inventions are, 'vented' from a pre-existing principle, which is a part of the 'energy organisation' called a 'hu-man be-ing'. The world around us is a projection of streams of energy, although this time it's not water and a shower rose, or colander, its pure energy and MIND. The mind is as a roll of film, and the Spirit shines through it, projecting EVERYTHING burned onto it, producing everything we can see and perceive. LIFE is the omnipresent principle and we are all immersed in it. Our MIND is a TRANSDUCER, lowering the vibration of pure consciousness, passing it through the IMAGINATION, giving it substance and then projecting it as the world. The sense of separation results from identifying with the body, to the exclusion of the Spirit, and observation of '*similarities*' *all around us.* *As we grow up, the concepts of materialistic thinking are seeded into our minds and **constantly reinforced.** They manifest as 'body' and:*

- Family bloodline
- Nationality consciousness
- Schooling / indoctrination (think of a school of fish to understand an analogy of the level of indoctrination the dark forces aim at).

- Impractical traditions
- Shape and size of the body
- The clothing we wear
- Our gender

ALL these *and many more* create and form the materialistic outlook, and sustain the sense and *appearance of division, which is an illusion*. Each of these are ideas trapping the mind, and a trapped mind *is restricted in expression of the Spirit within*, and therefore the body cannot express that which it is designed to do...and so, there is great ‘de-pression’ of the materialistic forces, pushing in on us from all around, hindering ex-pression of the Spiritual forces, and suffering, illness, and dis-ease and death are the results. When the Spirit is flowing freely from the Well-of inspired reason within (our life centre where the pure energy is concentrated and is formed into character), and the inner fyre is radiating from the heart, all these so called materialistic thoughts are dissolved and with them the suffering they caused. Then the intellect has been illumined and the body is rejuvenated and restored to an undying state. Those who awaken to the Higher mind, no longer identify with a purely ‘physical’ body consciousness, they use the Spirit to charge the body with energy, heal it

by increasing the intensity of LIGHT and LIFE:

“I come that you may have LIFE, and have it abundantly” - Jesus (I AM)

This LIFE is a conscious flow from deep within, from the Life centre, which is located in the generative organs. The vast majority do not feel the powerful flow from within because they do not know they have a Life centre, and the energy it gifts us with each day, is scattered in materialistic pursuits and diminishes rapidly. As we draw on the omnipresent Spirit and concentrate it, ***we also distil it*** and it becomes our body. The Higher mind (888) governs this process, although working at a subconscious level, because the lower mind, (666) and its intellectualism has been developed and none of the other faculties necessary for a well-developed, well-matured human being have been cultivated. Using the power of the I AM (Jesus) we “call” these mental faculties out of their materialistic ways, and educate them in disciplining the Pure Spirit and this process matures us into conscious daughters and sons of God. /...continued in part 2.

Applied Meta-Physics is the oldest Science in existence. It is the study of who we are and why we are here.

It is sometimes called 'The Science of Making the Ideal Real', because it identifies in concrete terms the abstract workings of the mind, and teaches the steps every eternal idea passes through in transition from the plane of the eternal spiritual world, to become manifest on the earth plane.

The sacred writings we have inherited are metaphysical in nature. This means they have been written through the inspiration of the Paraclete using words, which have varied meanings, interpreted accordingly, depending on which level of consciousness the reader has achieved.

The *art* of Applied Meta-Physics is to 'conceal, to reveal'. The Wisdom the writers concealed protects it from those who would destroy the writings, *and therefore destroy themselves*, until a time when the human family matured and awakened and realised its need.

The scriptures are like an offer to an addict deep in the throes of ad-diction, rejecting what they really need most, and lashing out, because they have lost control of their own minds. In the height of the loss of control the addict attacks those seeking to help them and would destroy them.

The parables, analogies, codes and koans in the Helios Biblia have preserved these writings, as the power of the Word concealed within them has worked in the hu-man consciousness to do exactly that.

Applied Meta-Physics is the Key opening the way to comprehending their riches and applying the Wisdom revealed in one's life and proving the truth thereof.

There is a simple fact of life:

We are all created equal, in that we are all the offspring of God, and we form our lives by the thoughts, words, deeds we think, speak and do. The equality is that the Divine Law is no respecter of personalities.

We are all held responsible for everything we do, and our body either regenerates or degenerates according to the motives of our hearts. If we seek to rule others, we are using the life we have been given to express ourselves contrary to the Divine Law, and this is slow and definite suicide.

If we submit to the will of another, this too is slow suicide and contrary to the Divine Law.

The LAW IS!

It is the Doorway to Everlasting Life.

PEACE.
