APPLIED META-PHYSICS, THE SCIENCE OF BE-ING AND KNOWING

ESSAY: ENERGY Part 2

We can use any combinations of analogies to create an intellectual grasp of the energy of which we are composed.

In Part 1 of ENERGY, I used the analogy of the Shower rose/ colander, and that of a roll of film. The reality is that EVERYTHING we invent is speaking our own nature to us. EVERYTHING we invent, *is the projection of a principle at work within us.*

This includes all engineering inventions, medical inventions, gaming inventions, cooking inventions, - everything we have invented in the world around us, is a replication (sometimes very clumsy), of the principles of which we are composed.

Our consciousness is like a filament in a light bulb, the bulb is like the mind. Etched onto the mind is ideas, thoughts, words, and when the LIGHT of consciousness shines through the glass, whatever is written onto it, is projected

as 'the world'. The reality is, that the realness is within, and everything we see is the effect of thought and thinking.

Knowing the Truth is UNDERSTANDING THE PROCESS, which creates everything.

When we look onto the world we are looking at the effects of thought and thinking. No matter how much we dissect, chop, slice, and examine under a microscope, the cause is not to be observed, because the 'cause' is looking through the microscope!

Consciousness has been passed through the prism of the mind, 'creating' and forming everything in the world, then a lowered state of consciousness dissects the object, to find the cause, because it does not understand, it itself is the cause, or a part of it!

This is the result of the fragmentation of the mind, where it identifies with the material world and its multitude of appearances. To overcome this, we are taught:

"Be ye transformed by the renewing of your mind".

Caught up in the world of appearances, the

lowered consciousness becomes embroiled in materialistic thinking, and cannot extricate itself. The reason it cannot, is because *it is the consciousness which is sustaining the thought -words and ideas which have trapped it.* This is the very definition of the Lower Mind (666), which admits to no other source of life, apart from its own observations and its own observations *are crippled by its own nature.*

So, the Pure ENERGY of LIFE, is muddled by thinking, then projected into the world as the world, and this produces a lowered state of consciousness, which, separated from the source is lost, and seeks comprehension, so dissects everything and does not find the source because it cannot. It has created the muddiness itself, and can only find the True source by sacrificing itself to the Higher mind, and this is called “being born from above”... it means overcoming the thinking, which creates all suffering, by invoking and learning how to use the state of consciousness, which is the Source of all life: God.

“You shall know the Truth (of your own Higher Mind) and the Truth (Higher Mind) will set you free.

ALL change is first a change of mind. EVERY idea, thought-word, and deed is governed by the Divine Law, and it is called 'divine' because of the experiences of those aligning themselves with it, and by doing so, increasing in power, peace, happiness *and the Joy of Living*.

The Divine Law is the ONLY LAW, everything else called 'law' is the corruption of the lower mind, seeking to alleviate its fear of the world, because it does not know that the Divine Law is ever active, so it thinks it must intervene to create order!

It is through this thinking all the world's troubles are caused. The energy passing through an idea of fear in the lower mind, reproduces that fear. The energy passing through an idea of selfishness, and greed reproduce those experiences in life. To counteract this, the lower mind dreams up 'laws' which trap it more!

This thinking of the lower mind is summed up in the concept in Genesis, where we are taught *not* to eat the fruit of the Tree of the Knowledge of Good and Evil, which is the Lower Mind. Whoever does so, debars themselves from eating the fruit of the Tree of Life,

and they are cast out of the garden, which is the consciousness of omnipresent LIGHT. The Garden of 'Eden' is the Garden of Delight, which is an analogy for the Garden of LIGHT.

The average person is not aware that their own Soul burns with an intensity of Light that produces constant Joy. Deep down, they KNOW life is a wonderful gift, and LIVING *should be* a JOY! So, they, trapped by the lower mind, go seeking the joy, and in the darkness and ignorance of the lower mind, they seek pleasure thinking it is JOY, and the pleasure has an equal and opposite reaction—Pain.

Pain is a call to action, an alarm call, a wake up call. Not to 'fix' the pain, rather, to completely change the behaviour, which caused the pain in the first place. It is a call to recognise a Higher state of consciousness. Many Dr's who treat holistically, seek to find the cause. When a meta-physician is treating someone, they teach them how to identify the cause within themselves, dissolve the cause and the effect changes. It must, that is the LAW. "What ye shall sow, that ye shall reap" - *is first an interior process. THEN it is a process made evident in the world.*

EVERY IDEA is a *nucleus of energy, germinated by thought, increasing as one thinks about it, assimilating Spiritual substance, taking form through the IMAGINATION, then being reasoned over in the Will and UNDERSTANDING, as well as being subject to one's thinking about their past experiences, then the Words are spoken, and once spoken, they go to do their work.*

This whole process happens almost instantaneously, depending on each person's motives, their intentions, and the lessons each has to learn.

To understand this thought process look at a court of Law. EVERY aspect of the PRINCIPLES of the courts of Law represent the thought-process, where every idea we have is brought into the 'court' of the conscious mind, and the various aspects of consciousness 'try' it to see if it shall be allowed free expression in the larger arena of life.

Unfortunately, again, the Lower mind (666)... has usurped the principles and corrupted them for its own agenda, and instead of teaching everyone how the thought process works,

it has all been hijacked by the Satanic consciousness and turned into a business, which generates filthy lucre, and thereby has lost sight of the PRINCIPLE which it represents, which is teaching the thought process. . Those doing so, do not realise they have sold their souls to materialistic ideas of the Satanic consciousness and the sleep of death. (Some think they can ‘worship Satan’, this too is a mental delusion.) Death is so deeply rooted in consciousness, the vast majority of people, despite being *alive and breathing* have been deceived into thinking that their salvation comes from ‘the world’.

This is just another example of the Lower Mind hijacking the scriptures and corrupting them, because, when the scriptures are understood, the very Light of the new understanding destroys the Lower Mind and transforms the person, redeeming them.

EVERY person is the offspring of God, we do not breath God breathes through us. As we become more conscious of this, and draw on the breath and direct it, and, meld it with Spiritual nourishment, we are, every minute, discarding old cells and replacing them with new cells, stamped with a whole new character.

“Be ye transformed by the renewing of your mind.”

*“Whatever you speak; you shall create: Change
your words; change your fate.”*

- A Pathway to Freedom

Right here, right now wherever you are, there is a process going on, where the Lower Mind is seeking to be dominant, and the Higher Mind is awaiting YOUR recognition of it.

As we listen for the ‘still small voice’ of the Higher Mind (888) and receive its guidance, we are living The Way, that all true Spiritual Teachers have taught. *They had/have the Law written within their heart*, they listened/listen to the Divine Law, rather than the opinions of others, and they radiate/d their LIGHT, despite the protestations of the world.

ALL desires of one person to control another are the work of the Satanic consciousness and the Race Thought Atmosphere, as a result of ignorance of the Divine and LIVING Law, and it is *‘Satan’s’ nature’ that is why evil has been so persistent throughout history. ‘Satan’ is an idea, which has crystallised in consciousness, the idea through which all other evil ideas come.* When we overcome the idea of ‘Satan’

and ascend into the higher planes of consciousness, then we are free. Until then, the idea of 'Satan' persists, and it is our work to continually be observant, so that we may totally overcome it/'Him'.

Understanding that WE are EACH a garden of ENERGY, and thought-words and deeds shape our lives, means we can and will dissolve every form of evil and restore the Garden of Consciousness to a pristine state, which reflects the Divine order of God.

THIS understanding empowers EVERY person, and we are all EQUAL in the eyes of God. We are all a seed of God, planted in the earth, we have germinated and are bearing fruit in the 'fields' of our lives and we are, or should be, daily sorting the wheat from the chaff, so we overcome every seed-idea which has caused suffering in the past. We LIVE right here, right now in the Kingdom of God...

"...the fields are white, ready unto harvest."

Our duty is to go within, and sort our 'chaff'/degenerate ideas, from our 'wheat' and live off the wheat/Truth, which represents Divine Wisdom and Love. As we do so, we are receiving the LIGHT and LOVE of the Higher Mind

which liberates us. ReGeneration is an ongoing process, and when we are aware of this, and live in the moment, choosing to live by the Divine Law, this is called “being in The Way”, or, “Living Life in the Way”. “The Way” is be-have-ing in alignment with the Divine Law, which produces the fruit of our ideas and thought-words. OUR own energy is a “Spark of God”, some say that the more ‘life’ we appropriate then the better quality our life will be. An example I heard is that of “blowing bubbles” where the ‘teacher’ is teaching we are each bubbles and the bigger we are, means we have a better quality life, and this is the epitome of Satanism. The analogy is better described, if one has to use ‘bubbles’ as shaped by the air, floating in the air, and the actual bubble is merely a lens. Then whether ‘large or ‘small’, one knows they are AIR, and that the lens is just that, a form of perception, and that *in reality, we are all air (or Spirit) and whether large or small, we are to live for the other, to raise the whole consciousness out of the concept of ‘large and small’ and to re-establish the consciousness of our Spiritual Unity.* This is real and et-ernal peace and UNITY, with no ‘rich’ no ‘poor’, each person a nucleus of conscious energy: *the offspring of God.* / ...Continued in Part 3.

Applied Meta-Physics is the oldest Science in existence. It is the study of who we are and why we are here.

It is sometimes called 'The Science of Making the Ideal Real', because it identifies in concrete terms the abstract workings of the mind, and teaches the steps every eternal idea passes through in transition from the plane of the eternal spiritual world, to become manifest on the earth plane.

The sacred writings we have inherited are metaphysical in nature. This means they have been written through the inspiration of the Paraclete using words, which have varied meanings, interpreted accordingly, depending on which level of consciousness the reader has achieved.

The *art* of Applied Meta-Physics is to 'conceal, to reveal'. The Wisdom the writers concealed protects it from those who would destroy the writings, *and therefore destroy themselves*, until a time when the human family matured and awakened and realised its need.

The scriptures are like an offer to an addict deep in the throes of ad-diction, rejecting what they really need most, and lashing out, because they have lost control of their own minds. In the height of the loss of control the addict attacks those seeking to help them and would destroy them.

The parables, analogies, codes and koans in the Helios Biblia have preserved these writings, as the power of the Word concealed within them has worked in the hu-man consciousness to do exactly that.

Applied Meta-Physics is the Key opening the way to comprehending their riches and applying the Wisdom revealed in one's life and proving the truth thereof.

There is a simple fact of life:

We are all created equal, in that we are all the offspring of God, and we form our lives by the thoughts, words, deeds we think, speak and do. The equality is that the Divine Law is no respecter of personalities.

We are all held responsible for everything we do, and our body either regenerates or degenerates according to the motives of our hearts. If we seek to rule others, we are using the life we have been given to express ourselves contrary to the Divine Law, and this is slow and definite suicide.

If we submit to the will of another, this too is slow suicide and contrary to the Divine Law.

The LAW IS!

It is the Doorway to Everlasting Life.

PEACE.
