APPLIED META-PHYSICS, THE SCIENCE OF BE-ING AND KNOWING

ESSAY: PASSION

Passion is a very unusual and very misunderstood Word. It was specifically coined to apply to and describe the life, teachings, suffering and death of Jesus.

As Jesus represents the 'I AM' within everyone, and there are layers to the parable/analogy of his life story, the passion refers to the slow death of the lower mind, or 'man of the flesh' as we succumb to the world and its ways. I.E. We slowly die within until we realise what is happening and 'repent' that is turn around within ourselves and stop dying and start living.

After the death of the carnal mind, there is a resurrection on a whole new plane of activity, whereby, when the natural, the idea of the physical and material person has been killed and buried, psychologically speaking, that from this death, the real spiritual Self emerges.

"A house divided against itself, cannot stand".

We cannot live in peace and harmony thinking we are 'mere flesh and blood', and at the same time state the truth, which is: I AM Spirit, I AM Life, I AM that I AM, I AM the Son of God in whom my Father shows his favour, I and my Father are One...

For these and more, are the words we are to keep, to nurture in mind until they bear their fruit in and through us.

"Flesh and blood cannot inherit the kingdom", and this has been so often misunderstood by the intellectuals to mean that we die and go to a faraway heaven, when the reality is, it means we must be transformed renewed in our minds, we have to ascend out of the lower mind (666) into the higher mind (888) by taking up the cross (777) and crossing out of mind every idea, which is unlike Love.

IF the statement means that we have to die first, there is absolutely *no way* the author could have written these words! Because whoever wrote them, would have had to have died and come back and write them... for them to be true!

So many people have corrupted the scriptures, these psychological text books putting everything in God's hands saying we need do

nothing, and missing the point that the parables are teaching us *how* to mature in consciousness as Hu-man Be-ings; as offspring of God.

We each have work to do. When we do this work of “renewing our minds” we experience the mystical, the realms beyond the physical, which confirms to us, the Kingdom is within.

“Flesh and blood cannot inherit the kingdom” means the *idea* that we are ‘only flesh and blood’ is the fruit of the lower 666 carnal mind, which produces every idea of limitation the hu-man family is subject to.

The carnal mind and all its ideas, it that which we are to overcome.

I AM Spirit, You are Spirit, the reality of everything being Spirit, or energy, formed by thought-words and held that way, in each person's mind, and collectively, is both a principle of the ReGeneration, and is agreed on, and confirmed, by sincere and honest scientists.

All is energy, and we are to work in the realms of energy, via the *Power of the Word*, to purge the darkness which has enslaved the hu-man family, so that we manifest a New Heaven (mind) and a New Earth (ReGenerated body).

PASSION Sunday is a commemoration of the process each *initiate* passes through in overcoming the carnal mind, and attaining to the *Christ*.

AGAIN, *Christ* is not the surname of Jesus, nor is it the name of an exclusive 'religion', *Christ* is the principle and source of life every sincere spiritual teacher has sought to commune with since the foundation of this world.

Remember, 'this world' of appearances is the projection of the current Race Thought Atmosphere, and as we purge our hearts and minds of everything that is unlike Love, we experience life's flow direct from the source and this cleanses both heart and mind, illuminating them, and consequently, how we live changes, and what we project into the world changes.

We are to totally overcome this carnal mind and all its thinking, all its division, fear, lust, greed, violence... ***all of it.***

The New World now being birthed through those who are ReGenerating is nothing like this existing world with its division into countries, its politics, its corruption, fear, greed, violence, wars, fraud, lies, deception.

It is a World of, as yet, indescribable peace and

beauty, a world of abundant life, a world of Wisdom, Light and Love, a world where each person is consciously connected to the Father of ALL and lives as an expression of the Father, and experiencing all the benefits included in establishing communion with God-Self.

As the parable states, Jesus says: *“Forgive them Father, for they know not what they do!”*

What did they do? They lived their whole lives as a vehicle for the expression of the dark psychic forces, of fear, greed, division and death. These dark ideas were sown into their minds generation after generation and they acted on them because ***they knew no better.***

Consequently, those without understanding have always resorted to violence, because they have not *felt* their unity with those around them, because their minds have been enslaved and darkened and their hearts, although beating, have no awareness of the Fyre of Life, the flame of immortal glory hidden within each of us.

As each is born into an arena of the lower mind (666) very few have extricated themselves from its power, and so spiritual evolu-

tion has progressed slowly. We are now in the days when that Spiritual evolution is accelerating, as more and more people awaken and dissolve the dark forces within them.

This process of dissolving the dark forces is highlighted throughout Lent, when we lengthen the periods of conscious unity with God, and shorten the periods of sleep in the lower mind, and as we persevere we overcome the carnal mind completely and attain to the *Light of Life*, becoming consciously aware of its flame burning within us.

Illumination is the *start*, it is not a goal in and of itself. Illumination is like going into a room and turning the light on, then seeing the mess in the room. The Light does not actively clean the mess for us!, no! we are to clean the mess and the *Light* empowers us to recognise the mess and do what is necessary to restore order.

There is a Divine Order of the Spiritual World, and its blueprint is within everyone of us, and we align with that blueprint when we align ourselves with the Divine Law, the Decalogue, and these commands are from the *Higher mind, to the lower in each of us*, that we may liberate ourselves from suffering and death.

Jesus sums up the Decalogue and all the words of the prophets to two commands:

Master, which is the great commandment in the law ? Jesus said unto him, “Thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy mind. This is the first and great commandment. And the second is like unto it, Thou shalt love thy neighbour as thyself.

On these two commandments hang all the law and the prophets.”

This is not in any way a contrast with the Decalogue, it is the result of comprehending and living by the Decalogue, where the carnal mind requires purging and later, once purged, the higher mind becomes active, so the ‘thou shalt not’ of ‘Moses’ is the higher mind to the lower mind, and the “thou shalt” of Jesus is the expression of the higher self, in the world.

In the case of Moses, the words ‘bind’ *the lower mind, restricting it*. In the case of Jesus “I AM” the commands *express the Higher mind and its powers*.

All of these parables are illustrating what is happening within every person, as we submit ourselves to the process of ReGeneration, and awaken out of the deep sleep of ignorance.

We are all being transformed. Either we are in alignment with the process and learning consciously, or we are allowing the ambitions of the world and its Race Thought Atmosphere to seduce us, and this slows and makes the process more painful.

Pain is designed to awaken us, to invoke a reaction within us, to get us to awaken and ask *why* we are suffering, and we each know why, we carry the reason within us, and through introspection we find it.

“By their fruit ye shall know them”, - we recognise our errors through the pain we experience. The pain is a call to action, a call to recognise what thinking and behaviour produces suffering and invoking the spirit to teach us differently.

This is briefly, what the Passion of Jesus is about, it is about each of us persevering through the world of the Race Thought Atmosphere *knowing* that we embody the Spirit of Truth, which, when we trust it, it shall enable us to overcome all obstacles, and in transforming ourselves, realise all of life is a gift.

The essential part in understanding life as a gift, despite its hardships, is that we *all need to come together and provide what it is the Spir-*

it inspires us to share in order to heal ourselves and each other. Many people will strive for years to achieve worldly ambitions, yet, when it comes to Spiritual work, they think everything should just fall into their lap by the ‘grace of God’. They do not realise that we have to liberate the Grace of God locked within us in order to see its working in the World.

“I come that you may have life and have it abundantly”. There is no ‘waiting’ involved in this statement.

It is a call to *listen*, to open one’s heart, to recognize the *supernal Light, burning within us; whose beauty surpasses any description we have yet coined for it. We call it Love, Heaven*, yet the carnal mind has debased the meaning of *Love and Heaven* to the point that very few understand or have experienced the thrill of its exquisite beauty.

To be *passionate*, is to be focussed on overcoming ideas of limitation, which the world has sown into our minds, and which we have lived through our whole lives. It means to single minded and focussed on maturing as a human be-ing, - as an aspect of God’s mind in activity, on the earth plane. It means giving up the lower carnal mind, and striving for the

Higher mind, it means awakening from a deep psychic induced sleep into a whole new awareness of life. THIS is what the whole world is experiencing right now! It is the 'parting of the ways' as people extricate themselves from the darkened forces of the Race Thought Atmosphere and seek the inner Fyre of the Heart and fan its flames higher and higher.

This is not about 'knowing' or 'knowledge' or arguments presented by the intellect, which has and can trap the mind in thousands of years of discussions! NO! This is about becoming aware of and *tasting the inner Fyre of Love, of God, in one's Heart and sharing the Light with others.*

The reality is that there are no 'others', we are as intimately connected to each other as the cells of our own skin are. Life is organised in such a way that we all are suffering in some way and awakening, or, which we are manifesting NOW, we are uniting and awakening and sharing everything for the benefit of the One Body, of the Hu-man Family, which each perceives after the passion and through the revelation of the *Christ* within.

The 'second coming' of Christ, is the *full realisation that YOU are the offspring of God.*

Applied Meta-Physics is the oldest Science in existence. It is the study of who we are and why we are here.

It is sometimes called 'The Science of Making the Ideal Real', because it identifies in concrete terms the abstract workings of the mind, and teaches the steps every eternal idea passes through in transition from the plane of the eternal spiritual world, to become manifest on the earth plane.

The sacred writings we have inherited are metaphysical in nature. This means they have been written through the inspiration of the Paraclete using words, which have varied meanings, interpreted accordingly, depending on which level of consciousness the reader has achieved.

The *art* of Applied Meta-Physics is to 'conceal, to reveal'. The Wisdom the writers concealed protects it from those who would destroy the writings, *and therefore destroy themselves*, until a time when the human family matured and awakened and realised its need.

The scriptures are like an offer to an addict deep in the throes of ad-diction, rejecting what they really need most, and lashing out, because they have lost control of their own minds. In the height of the loss of control the addict attacks those seeking to help them and would destroy them.

The parables, analogies, codes and koans in the Helios Biblia have preserved these writings, as the power of the Word concealed within them has worked in the hu-man consciousness to do exactly that.

Applied Meta-Physics is the Key opening the way to comprehending their riches and applying the Wisdom revealed in one's life and proving the truth thereof.

There is a simple fact of life:

We are all created equal, in that we are all the offspring of God, and we form our lives by the thoughts, words, deeds we think, speak and do. The equality is that the Divine Law is no respecter of personalities.

We are all held responsible for everything we do, and our body either regenerates or degenerates according to the motives of our hearts. If we seek to rule others, we are using the life we have been given to express ourselves contrary to the Divine Law, and this is slow and definite suicide.

If we submit to the will of another, this too is slow suicide and contrary to the Divine Law.

The LAW IS!

It is the Doorway to Everlasting Life.

PEACE.
