APPLIED META-PHYSICS, THE SCIENCE OF BE-ING AND KNOWING

ESSAY: EASTER SUNDAY

Throughout the Holy Scriptures: the Scriptures, which teach us how to become whole, and access the deeper powers of the Spirit, as it increases in and through us, there are many trials.

A trial is the application of a Living Law, in order to see and understand how well we have understood and applied the Law in our Lives. The events of our lives teach us how closely we are in alignment with the Law.

The teachings use analogies, because what is 'above' to the lower mind, must be strived for, and this is why it is called 'ascending'. The diagrammatical representations of the various temples of the world, teach us about our own body. The entrance to the temple is in the East. The 'East' represents 'within' us, the place of the heart. When one overlays the temple, over the figure of a human body, the TWIN doors of the Temple are at the FEET. Feet represent UNDER-STANDING. The sole

of our foot represents our Soul, and also teaches us that we each have to increase our consciousness 'sol'- 'o', that is by an increase of light, each increasing it within themselves, for *themselves and for the collective*.

The symbology of the Helios Biblia, is at once deep and simple. Every image, every person, every situation, that is, every garden, river, name of town, person, place, animal or thing, represents an idea, and when we reduce the letter to its primal ideas, the true message comes through...and as we learn and apply the truth, it confirms its own path to us, and for us, teaching each of us, what we need to know and do.

"The letter kills, the Spirit gives life"...

...is a direct reference to the fact that if we think the literal meaning conveys the whole message, then we miss it. When we understand that every word *is a spirit* and we seek the spiritual meaning, then we are liberated from the limited and the truth of the script-your is revealed.

I spell the 'script-yours' like that, as a constant reminder of the Science of Applied Meta-

Physics contained in the scriptures: the Helios Biblia (Bible), the Vedas, The Bhagavad-Gita, the Tao Te Ching, all, and many more, are teaching us on various levels simply because they were written to guide everyone through a process of transition, from limited personal consciousness, into a realisation of unlimited Universal consciousness, with abundant life, joy, peace, health and happiness.

The only enemy each has is the accumulated ideas in their own mind, which have hijacked the intellect, and these crystallised accumulated ideas our ancestors called 'Satan', the 'Devil', and once we dissolve all these ideas rooted in our own minds, *we go free*.

Throughout this past Lenten season, each essay has shared inspirational truths to re-mind each reader that what they seek is *within* themselves, buried deep within the tomb of materiality thinking. The highest ideals within us, that is, the 'angels' of God move the stone, and Jesus (I AM) leaves the Tomb.

The parable of the crucifixion is the crossing out in mind of every idea which causes suffering in any way, and the consequent liberation of the Spiritual I AM, which then resurrects

the body, the whole person, and raises them from the sleep of death. The 'sleep of death' is that state of consciousness, where experience of the world and the Race Thought Atmosphere is one of continued division, anxiety, fear, violence, dis-ease doubt and poverty.

NOW, through the ReGeneration, through understanding that every parable is teaching us to go through a process of renewal, to sift the chaff from the wheat, to introduce the leaven (truth) into the body, and allow it, through its nature to increase until the whole loaf is leavened, that is, ***the truth works in us to transform and heal us.***

AGAIN, it does not matter which scriptures one reads, as long as the stories are reduced to their primal ideas and the truth is understood and does its work. Those who identify with the name of schools of thought posing as 'religions' do not understand **Religion** as the ONE process of Life, which is teaching us the defragmentation of the mind and the attainment of wholeness, peace, and everlasting Life.

When we understand the Truth of the Divine Law, that it Lives in us, monitoring every

thought word and deed, and producing the fruit thereof in our lives, then we can guide them, and ReGenerate our thinking and then our Bodies are purified and healed.

It is the ideas which are rooted in our minds which cause all division, fear, greed, lust, sloth, avarice/greed, anger, and pride, these are the 'demons' at work within us producing disease. While modern 'science' claims 'demons' do not exist, the reality is, only a mind trapped by demons can claim they do not exist. Those who understand the power of the Word, and how it grows and multiplies, and creates a psychic atmosphere, understand clearly why demons are so called, as well as egregores, jinn and fallen desires. Each of these represent ideas at work within us, usurping our freedom, making us ill by producing impure and toxic *gases* in our bodies, which cause the visible manifestation of the dis-ease.

Treating the symptoms has never and will never work, as long as the *ideas*, which are toxic and producing the toxic gases, and an acid environment, are alive and reproducing themselves.

The ReGenerative process is one of looking at

our minds and *purging every toxic idea*. As we do this, our health is restored, we are renewed, we are ReGenerated and the cells vibrate with a frequency of Light never before experienced and this comforts us, this light heals us, and shows us the Way to everlasting Life.

‘The Way’ is in front of us every moment of the day... What Way shall we think? Shall we align ourselves with the Divine Law, or choose the opinions of men, which are suicide? Are we going to criticize and curse our family members, our ‘friends’ our employees, our employers, - whatever Way we choose is written into the body and becomes us.

*Know, that whatever Words you speak, **are picked up by the tuning forks of the teeth and transmitted through the nerves to the brain centres and then distributed throughout the body, and by our own words we build our body.***

In modern days, this is recognized up to a point. People realise they make a decision to go to gym, and then work on their body, having made the decision to improve themselves. Whatever their motive for doing so, produces

the results in their own body and lives.

When it comes to the deeper issues of transforming the body, and overcoming dis-ease, there is a mental block. The thinking is that a 'Dr.' is needed, and this is the product of the Race Thought Atmosphere, whereas, before, when the script-yours were written, it was known that the cells manifest our thoughts, and when we change our thinking, and totally dissolve all dis-ease causing ideas, we heal. In the days of the advent of Christ, (Light and Power) there were *no incurables*. Once the mind is cleared of the idea of sickness, the spirit, which is at the back of *everything*, manifests in its purity and the body is healed.

"Be ye transformed by the renewing of your mind."

In the Book of Genesis, we read Adam and Eve were in a Garden, that Garden is *our consciousness*, and whatever ideas we increase and multiply, manifest in us, through us as us. Throughout this series of lessons I have emphasised the garden of mind, the *garden of being*, ReGenerating the Garden, dissolving *weed ideas*, cultivating ideas, which will produce abundant fruit; health, peace, harmony, unity, joy, - and more. ALL the things which

EVERY person on earth desires to experience, yet have not yet, because they have not been taught the *power of the Spoken Word to dissolve the degenerate ideas and thought-words and behaviour and speak Words of kindness, which are a succour to themselves and 'others'.*

Easter Sunday regardless of its 'history', and varied stories of its origins, commemorates the culmination of a process *you and I have been working through. One of fasting from degenerate ideas, so they die within us, and cultivating the seed ideas, which produce abundant life, health, peace, strength, love, joy, and producing in us, the virtues (Vir is LIFE!), which enable us to live peacefully, with humility in the sight of the Divine Law (not exalting ourselves and thinking we can make our own laws) then when we know the Divine Law is always at work in and through us, we are Kind to 'others' and we develop 'patience' and we are diligent in Gardening the Mind, preventing other people's weed ideas from seeding our garden and hijacking our consciousness, and in order to stay crystal clear in mind we temper the Race Thought Atmosphere and are observant in its working and influences through those around us, then*

we abstain from everything which may cause us to allow seed ideas into our minds which could cause us to lose Self-control, and then we conserve our Life energy, to increase its potency and keep the body in perfect health and invoke the Spirit more intensely when required to assist an 'other' to heal. EVERYTHING the lower mind has taught us is 'weak' is an aspect of the greatest strength—Self-control, Self-mastery, Self-Preservation, Self-Healing, and it has done so because it knows when you are free, it has no control over you whatsoever.

There is a chasm between living in the world and not of it, and being of the world. A chasm where those of the world are asleep, they have not awakened to the ***Christ within*** them, ***the Light and Power within them***, and they are still struggling with shedding the deceit and overcoming the lies, ignorance and confusion, into which, every person is born into, in this world.

Those who hear the call of their own Soul, and follow it, *are transformed, through the process of ReGeneration* and their duty to others is to bear witness to the healing power of the Spirit, and the only real 'Dr.' of our Souls—

‘Jesus Christ’, meaning *I AM (Jesus) filled with Light and Power (Christ).*

Jesus is the I AM of each of us. Christ is the Light and Power which sustains the whole creation, and which is breathing through us, animating us, imparting to us the free gift of Life. Easter is the analogy for New Life, having left the tomb of materialistic thinking, we have overcome the lower mind, the 666, the materialistic mind, and ascended into the higher Mind, the 888 mind, and will be guided intuitively by the 999 Intuitively Wise mind, in preparation for attaining to the 1,000 plane of consciousness, The Conqueror. This is how to attain permanent UNITY with the Spirit of God which animates us.

“Oh death, where is thy sting!”

“And God shall wipe away all tears from their eyes ; and there shall be no more death, neither sorrow, nor crying, neither shall there be any more pain : for the former things are passed away. And he that sat upon the throne said, Behold, I make all things new. And he said unto me, Write: for these words are true and faithful. And he said unto me, It is done. I am Alpha and Omega, the beginning and the end. I will give unto him that is athirst of the fountain of the water of life freely.” He that overcometh shall inherit all things ; and I will be his God, and he shall be my son.”

Personal Note:

It is my sincere desire that you have found this series of essays helpful and meaningful, and that what you have learned and experienced will help strengthen you and seek the Light in every situation.

I intend to write a series of essays from Monday 18th April, until Pentecost Sunday. This will be a countdown series, and the countdown is to commemorate the assembly of the Disciples (our own faculties of mind) in the Upper Room... that is uppermost in our minds we have determined to serve that which is Highest and purest within us. As we continue this process, the 'tongues of flame' become manifest, as we are empowered to Speak the Truth which dissolves all the psychic darkness of the current Race Thought Atmosphere and purge it completely and saturate it with Light and Truth, kindness, Wisdom and Love.

I LOVE YOU ALL!

Applied Meta-Physics is the oldest Science in existence. It is the study of who we are and why we are here.

It is sometimes called 'The Science of Making the Ideal Real', because it identifies in concrete terms the abstract workings of the mind, and teaches the steps every eternal idea passes through in transition from the plane of the eternal spiritual world, to become manifest on the earth plane.

The sacred writings we have inherited are metaphysical in nature. This means they have been written through the inspiration of the Paraclete using words, which have varied meanings, interpreted accordingly, depending on which level of consciousness the reader has achieved.

The *art* of Applied Meta-Physics is to 'conceal, to reveal'. The Wisdom the writers concealed protects it from those who would destroy the writings, *and therefore destroy themselves*, until a time when the human family matured and awakened and realised its need.

The scriptures are like an offer to an addict deep in the throes of ad-diction, rejecting what they really need most, and lashing out, because they have lost control of their own minds. In the height of the loss of control the addict attacks those seeking to help them and would destroy them.

The parables, analogies, codes and koans in the Helios Biblia have preserved these writings, as the power of the Word concealed within them has worked in the hu-man consciousness to do exactly that.

Applied Meta-Physics is the Key opening the way to comprehending their riches and applying the Wisdom revealed in one's life and proving the truth thereof.

There is a simple fact of life:

We are all created equal, in that we are all the offspring of God, and we form our lives by the thoughts, words, deeds we think, speak and do. The equality is that the Divine Law is no respecter of personalities.

We are all held responsible for everything we do, and our body either regenerates or degenerates according to the motives of our hearts. If we seek to rule others, we are using the life we have been given to express ourselves contrary to the Divine Law, and this is slow and definite suicide.

If we submit to the will of another, this too is slow suicide and contrary to the Divine Law.

The LAW IS!

It is the Doorway to Everlasting Life.

PEACE.
