APPLIED META-PHYSICS, THE SCIENCE OF BE-ING AND KNOWING

ESSAY: THE CALL

When you ‘hear’ or feel ‘the call’ either in the world, or within yourself, know that this is a call from the Spirit which animates you, calling to you to acknowledge it, so you can live a hapi-er, more peaceful and fulfilling life.

It is calling to you, to more deeply and consciously infuse you with Wisdom and Love, and the know-how to navigate across the ocean of life, and instead of thinking life is all about suffering, realise that we suffer when we are out of alignment with the Divine Law, which governs the whole Universe.

As stated previously, it is not ‘the Universe’ as in an entity separate from us, *we are the one-song; uni-verse*. What we experience is the fruit of the thoughts we are sustaining in our consciousness, and being taught via life’s events, we are responsible for our every thought-word and deed.

The call we hear, or feel, is the call of the Spirit, which has reached us through the congregation of the thoughts holding their places in our minds.

When we receive the call and listen to it, and follow it, it takes us deeper into ourselves, for it is a call from the true Self, to us, so that we may come to know it, more deeply than ever before.

As each child is born, it is born into a pool of consciousness, which has been shaped by the area where its parents live, and as it grows up, it is immersed totally in the atmosphere of that area, which saturates it. The saturation shapes all thinking, and will do for a lifetime, until either an *interior or exterior* influence calls to them, and tells them: *“There is a better way to live, there is a way to heal, there is a way to enjoy this magnificent gift of life free from the prison of other people’s thinking and its consequences”*.

When this call comes from the world, one tends to be suspicious, because suspicion has grown strong in an uncaring materialistic world. When it comes from *within*, depending on how powerfully one received it, there is no doubt about the call and one “leaves everything they have” to find and unite with the source of the call.

This “leaving everything one has” is not necessarily leaving house and home and everything one has worked for, *it is a total change in perspective, where, once the Spirit reveals*

itself to the heart and mind in tremendous power, one “leaves” the ideas of a materialistic world behind, and goes in search of its source.

That source is the Garden of Being, which is the Spiritual Blueprint; the foundation of this world of appearances.

The call, is calling each person out of the pool they were born into, to dis-cover ‘another country’, which is the Spiritual World, and if this includes travelling to another country on earth, then so be it. The lessons will be more clear and the traveller will learn more quickly, being faced with a call to change internally and to adapt to their new home.

Many travellers have sought to teach those who do not travel, of the educational power of travelling. “Travel broadens the mind in a way that no other activity can”, is a common thought—and it is true, when relating to the earth plane.

Those who Astral travel, and commune more deeply with the Spiritual planes of consciousness, know of other planes and of the Joy they bring when experienced. These other planes interpenetrate the earth plane, and all their riches are available to use by those who open their hearts and minds to them, and are educated into interacting with these forces and expressing their gifts wisely and with love.

In the various pools of consciousness spread throughout the world, each of the communities have similarities and differences. Yet, the thought-atmosphere they've created will each be different from the other. If one looks at a world map, one can see that these 'pools of consciousness' are called 'countries' and each country is formed over years of thinking and tradition and each sustained by the erroneous idea that we are 'different' and the idea causes the mind to manifest the various languages and traditions and food and clothing which sustains the concept of division.

Now, the world is *rich* in traditions which are nutritious for the Soul, yet, likewise, it is also peppered with traditions that are degenerate.

When one hears the call, one is receiving a gift from the Spiritual Self, which when received and acted on, will enable one to outgrow the bounds of the pool one was born into.

Every country has developed, over the years its stories, its myths, its open teachings of a greater Spiritual world. Unfortunately, rather than realise each story, myth, teaching is pointing to *universal truth*, a great many people being blinded by the muddy waters of the pool they were born into, cling to the table cloth, and miss the feast of truth sitting on the table.

That ‘feast’ is the Spiritual Self, which is an avenue of expression of the *infinite God*. Again; *we do not breathe, God breathes through us*. So, whether ‘The Call’ comes from within, of through another person, an epiphany (a moment of indisputable connect to God), or through activating Spiritual centres within, the call anyone hears is always from the *one source*, and its purpose is the same: To call us out of the Self-limiting pool of consciousness, into which we were born, into a personal understanding and experience of the infinite God-Self. This God-self we call I AM, and there is only one I AM in all existence, of which we are each a fragment.

When we hear the call of the I AM, and make the decision to listen to it, and follow its guidance, we will be, to the extent we hear and *heed* the message guided to learn about life, via the best lessons, delivered in the best way.

Our calling is a *blessing*, it is confirmation to each of us, that our lives have purpose, and each purpose will lead us through lessons, to a greater purpose, and each lesson strengthens us in that purpose, and as we grow stronger, we become more capable and life becomes more joyful.

The purpose of the Spiritual gifts we receive is to fulfil us, to satisfy us, yet, we must in or-

der to be happy, understand life's processes and the Laws, which Govern our growth to Spiritual maturity.

ALL hu-man suffering is due to ignorance of Self, ignorance of the Divine Law, ignorance about what to eat and drink, and due to ignorance that Life's purpose is the ReGeneration. ReGeneration is the unfolding of the Divine Consciousness within us, which renews our lives in every way.

In the various pools of consciousness we are born into, the main, if almost unconscious focus, is on sustaining the pool's thought-atmosphere, and this is an aspect of self-preservation, which needs to be raised to Self-Preservation.

This means, every pool, in seeking to preserve itself, is defending its thinking and traditions, instead of uniting with each other, and each strengthening the other and working to dissolve the traditions, which cause division, fear, greed and wars.

The Call one receives is out of this miserly, and constricting state of affairs, into a greater awareness of the real cause of suffering and its only real and permanent solution: Unity. Those heeding the call, start to participate in the process of ReGeneration, where, in the garden of the individual mind, which is a frag-

ment of the Universal Garden of Being. The process of ReGeneration is called 'Religion' - which is a word deriving from the Latin 'Religare', meaning 'to bind back'. This 'binding back' is the defragmentation of the minds of the hu-man family. In computing, defragmentation is the ongoing process to reduce fragmentation of a file (or all files) on a storage device by moving separated parts into a contiguous location.

This *defragmentation* of our hard drives, is an invention teaching us about the migration of Souls across the earth. We are each hearing a call, and in that call, we are being relocated to the place where we can fulfil our purpose. On earth, the bytes of 'data' represent people. The hard drive the earth, the writing of history, is the periodical events when we open a file and close it, open it close it, each time adding to it, and then the parts of the file are fragmented, separated and so, we do the 'defragmentation' of the hard drive, to put all those parts, which belong together, together, so everything is "in order".

Remember, *Order is the first Law of the Universe*. Human history is the process of "Let us create man, into our image, *after* our likeness". God created the *ideal*, and our lives are the working out of that ideal. This is one of

the reasons why Applied Meta-Physics is also called “The Science of Making the Ideal, Real”, because it is the Science dealing with how everything manifest, was made so.

When one hears the call of the Higher Mind (888), one must heed it. If one ignores it, the call becomes louder and louder and if totally ignored the person merely exists in a darkened world, having disregarded the Light within oneself. This is a living Hell.

Our forefathers had a name for those who heeded The Call. The Greek “*ekklesia*”, “ek”, meaning “out of”, and “kaleo”, “to call” - together, literally, “to call out”... so, when we hear the call, it is the very source of our being, calling us out of our confused state, to be taught the Truth of Being, through the process of *education*.

Education, derives from the Latin: edu-care, meaning “to draw forth and develop” and what is being drawn forth from out of the dark and ignorance of the mind, is the Knowledge of the True Self, and our immortal nature, and how we are all ONE.

Re-ligare is binding back the fragmented parts of the individual mind, and the collective, first area by area, then an awakening to realise our Unity. Unity is first an inner reality; then it is lived.

Our call is a call from ignorance to Wisdom, from carelessness to Love, from violence to Kindness, from division to UNITY.

Then, from poverty to realising the Riches of the Kingdom of God, where, our Wisdom, Love, Kindness and Unity, carefully distributes the available resources to care for the whole human family, in exactly the same way Wise choices and self-Love enable us to care for *every part of our body*. The modern word for 'ecclesia' is 'Church', another word, which has been hijacked and used for political agendas and to camouflage horrendous behaviour, simply because those who hijacked it were immersed in the mud of their own regional pool and know no better. Those of you, you have been stirred up within, and who look to the teachings of the sacred script-yours for guidance are "the called out ones". You have been called out of the ways of suffering, sickness, dis-ease, division, poverty, greed, violence, false laws, war, and the fear of death, which dominate those still in the 'pool'. 'Church' is *not somewhere you go. It is what you become, when the Spirit of God-Self, within turns your life around and you are fed of it, and guided by it, and become a Living Stone, in an 'invisible' 'congregation' of people, spread all over the earth.*

Pentecost commemorates those who, met in the upper room of the Higher Mind every day, and cultivated the strength of the Spirit, which enabled them to invoke the power of the Holy Spirit and heal their lives.

Over the next fifty days, if you will nourish yourself of the Spirit, and *feast* on rich ideas which feed the Soul, you will bear more and more fruit of the Spirit and increase in peace of mind and grow in Self-Confidence.

The culmination of the period of Pentecost is that the disciples (those faculties of our minds concentrating and directing our life energy) were rewarded by the Power of Wholeness, where the Holy Spirit (the power emitting from union of Body and Soul) blessed them with Tongues of Fire—Truth.

“Ye shall know the Truth and the Truth (of the Power of I AM) Shall Set you Free.”

Applied Meta-Physics is the oldest Science in existence. It is the study of who we are and why we are here.

It is sometimes called 'The Science of Making the Ideal Real', because it identifies in concrete terms the abstract workings of the mind, and teaches the steps every eternal idea passes through in transition from the plane of the eternal spiritual world, to become manifest on the earth plane.

The sacred writings we have inherited are meta-physical in nature. This means they have been written through the inspiration of the Paraclete using words, which have varied meanings, interpreted accordingly, depending on their context, and also, which level of consciousness the reader has achieved.

The *art* of Applied Meta-Physics is to 'conceal, to reveal'. The Wisdom the writers concealed protects it from those who would destroy the writings, *and therefore destroy themselves*, until a time when the human family matured and awakened and realised its need.

The scriptures are like an offer to an addict deep in the throes of ad-diction, rejecting what they really need most, and lashing out, because they have lost control of their own minds. In the height of the loss of control the addict attacks those seeking to help them and would destroy them.

The parables, riddles, analogies, codes and koans, etc., in the Helios Biblia have preserved these writings, as the power of the Word concealed within them has worked in the hu-man consciousness to do exactly that.

Applied Meta-Physics is the Key opening the way to comprehending their riches and applying the Wisdom revealed in one's life and proving the truth thereof.

There is a simple fact of life:

We are all created equal, in that we are all the offspring of God, and we form our lives by the thoughts, words, deeds we think, speak and do. The equality is that the Divine Law is no respecter of personalities.

We are all held responsible for everything we do, and our body either regenerates or degenerates according to the motives of our hearts. If we seek to rule others, we are using the life we have been given to express ourselves contrary to the Divine Law, and this is slow and definite suicide. If we submit to the will of another, this too is slow suicide and contrary to the Divine Law. When we align ourselves with the Divine Law and live by it, we THRIVE.

The LAW IS!

It is the Doorway to Everlasting Life.

PEACE.
