APPLIED META-PHYSICS, THE SCIENCE OF BE-ING AND KNOWING

ESSAY: PRAYER

ANOTHER WORD badly misunderstood is PRAYER. Prayer is understanding and living by the Spiritual harmony of the Universe. When through Prayer the I AM (Jesus) heals, I AM / He is *restoring the harmony, which is the reality of the Spiritual Blueprint of Life.*

The materialistic thinker shuns prayer, and thinks it is useless, because they think that prayer is a supplication to an unknown or non-existent God. The reality is that Prayer, like all human activity, has degrees of action, and intensity. The prayer of Jesus (I AM) is not to be compared with the prayer of a child, who kneels by the bedside and says its prayers before going to sleep. Both are praying, yet the understanding and the intensity and effectiveness of the prayer are worlds apart.

Should the child be encouraged to pray every day, then they will grow into a greater and greater realisation of the power of prayer, and grow more in alignment with the Divine Law, and see with the spiritual mind, the underlying harmony of the world.

In Applied Meta-Physics Prayer is a science, the science of aligning oneself with the Spiritual blueprint of reality, and taking the necessary steps to make the *ideal, real*.

Prayer is cumulative, it is accrued interest as the light of the Spiritual body suffuses the 'physical body' transforming it. This is a daily incremental process, *exactly like everything else in life*. Whatever we do, when we do it every day, we get stronger, we strengthen the neuron pathways dealing with that activity. When an adept heals someone, it is because he/she has invested the necessary time and effort and developed the Spiritual understanding, and channels, which enables them to tap into the Spiritual warehouse, and access the powers of the Spirit and direct them in healing the person or persons they focus on.

ALL healing is the result of dissolving in mind the idea which sustained the infirmity or dis-ease. This is the purest from of psychology. Some people have grasped the hem of the understanding of the power of Words, yet, devoid of any understanding of the Divine Law and of *our unity, they seek to use the power selfishly. Those doing so, have built up a 'science' around this, called 'NLP'*.

NLP tries to detect and modify unconscious biases or limitations of an individual's map of

*the world. NLP, operates through the conscious use of language **to bring about changes in someone's thoughts and behaviour. It is manipulating people without their conscious permission.***

Religion on the other hand is awakening the subconscious and merging it with the super-conscious (The Conqueror 1,000 plane of mind), and thereby attaining at-one-ment with God. Remember, 'ment' is mind. At-One-Mind with God.

"Let this mind be in you, which was also in Christ Jesus".

For thousands of years the materially minded have sought to change the meaning of Words and create confusion among the human family, simply because this is the tradition they have inherited, and they seek to continue it and sustain their positions in society.

Prayer is liberating ourselves from this materialistic society and all its ills, and aligning ourselves with the Divine Harmony of Universe. When we look up, we see perfect order. Those who study the skies have been striving to comprehend them for thousands of years. Many have proposed theories and have proven, in a measure, that their theories are true, yet much still remains to understand.

Prayer strengthens us. When we contem-

plate the nature of our Spiritual body, we realise it is limitless. It is at one with God, and when we real-eye-s this, then, the purpose of our prayer is to align our lives with the power hidden within us. We are uni-verse, the One Song of God embodied. This becomes clearer as we purge materialistic thinking from our minds.

“There is nothing hidden that shall not be made manifest”

When we are born into a pool of the Race Thought Atmosphere called a 'Country' and are immersed in its traditions, the real-eye, the real individual is drowned. The psychic forces saturate the mind, and restrict the expression of each Soul... from the ages of around 4 years of age until 16, we are indoctrinated 'formally' every single day, except weekends, and in some countries weekends and 'Sunday school' too. When you understand this is the process of indoctrination you have passed through, to conform to materialistic ideas, then you can grasp the depth of the entanglement you must free yourself from.

The intensity of the daily indoctrination of 'schooling', draws our attention to the world as a *pseudo source* of 'knowledge' and 'wisdom' and people get caught up in it, they get caught up in the web of materialism, having been

taught it is ‘reality’. So, they lose sight of the *one true reality, which is the Spiritual Blueprint within each of us. First we are born ‘naturally’ with a natural body, into this world, yet, we are animated by Spirit, by a spiritual body, which we only become aware of after we awaken from the sleep of materialism.*

“It is sown a natural body; it is raised a spiritual body. There is a natural body, and there is a spiritual body.”

This Spiritual body is ‘in heaven’, that is, it is a nucleus of energy on the Spiritual plane, which then manifests as this natural body. *What we think of ourselves is what we make manifest.* IF we are saturated in the world’s value systems and in its thinking; to the degree we are ignorant of the Spiritual body, this is called being in “the sleep of death”.

When we fall short of expressing the Spiritual *reality* within us, we are said to ‘sin’, another word sadly misinterpreted and swung around like a bat, by some who consider ‘others’ to be sinners, yet they are not!

Sin is not just “falling short of the mark”; or “missing the mark”, it is also debt. Which is another form of falling short, it is lawlessness, i.e. being ignorant of the Divine Law and then writing your own ‘laws’ or living by the ‘laws’ written through ignorance of the Law that is

written within us. Sin is also disobedience, it is moral aberration, it is acting and contravening natural Laws, such as the Laws governing the safe and wise use of sex, (*fornication really means experiencing the 'fires of wrath' and disease in the body through misuse of the sexual organs*). Sin is also weakness (*impiety, originally referred to weakness, as opposed to piety, strength!*) . Sin is a 'virus' spread through lower mind (666) ideas.

Piety is strength, it is manifesting the strength and power of the Spirit because that is Spirit's nature, and in doing so uplifting the whole community. Piety 'expects no return' because it is a direct expression of the Holy Spirit. *Smith's Bible Dictionary* gives the definition of *iron in Hebrew as piety*. We use iron in buildings to give them strength, a strong silent inner strength, which enables the building to withstand the storms of the world.

Likewise, when we overcome the 'virus' of *sin*, in its various disguises, we grow strong and *in-dependent*. That is, the Spirit within us radiates its light through us, making us strong. Were all of this common knowledge, we'd live in a totally different world (*which is right now being born*) instead, the human family has laboured under the deceit that someone is coming to save us—and *always* at some

“future date”... all those teaching us how to save ourselves have been shunned or worse.

“With all thy getting get understanding!”

When Jesus stood up and stated this, he was teaching that through an increase in understanding, that is as each mind awakened to see through the veil of this world of appearances and comprehend the ideas, which are its foundation, then they'd have the necessary knowledge to restore hapi-ness in their lives.

Right now, a great struggle is going on, between ‘wants’ and ‘needs’. When we live going about supplying our NEEDS we will never encroach on anyone else’s life. Those who are slaves to ‘wants’ are always encroaching on other people’s lives, simply because they do not have control of their own lives, because they’re still trapped by the egregores, demons and jinn of the Race Thought Atmosphere.

Their slavery impels them to act in greed and their wants are always intruding, whereas, *needs* never do. When people are working to supply their needs and recognise others are too—they share. ‘Wants’, especially the term “I want”, is the epitome of Satanism. It is the most selfish, statement in existence, the product of the carnal mind seeking to fulfil its own desires, with little or no regard for those who

may be harmed, in the attaining of the ‘wants’.

ALL war is the result of *intellectualism* instigating it, where an individual is convinced it is ‘right’ regardless of how many people are maimed and killed, and how much damage is done to our dwelling places.

The term “I want” is the antithesis of Prayer. Prayer recognises our UNITY, and the underlying Spiritual reality, which creates the UNITY, and lives by it. Prayer in the words of Charles Fillmore is “accelerated mind action”, where we are aligning ourselves with the Higher vibration of the Higher Mind (888) and when we align with it, its vibration infuses us with Light and the harmony of the Spiritual realities are made evident in our bodies.

As our Spiritual body is the *real* of us, its inspiration, the Words emitting from it, via the intuitively wise (999) plane of mind carry greater power. So, through silencing the carnal mind (666) in meditation, we listen for the Words of the Higher mind and as we appropriate these, we are “eating and drinking the body of Christ”.

Let the reader be aware that the past and present Race Thought Atmosphere has done and continues to do everything to sustain the illusion of division in the world by manipulating the events of this world, by hi-jacking

schools of thought and educational systems and 'religious' organisations so that each person loses sight of Christ within. Where those 'churches' have been hi-jacked one will be led astray and taught of a "vicarious atonement". This means that they interpret the script-yours erroneously saying that 'Jesus' died for us... when the reality is that we lose contact with the 'I AM' through sin. We restore the contact with the I AM through prayer and meditation and by aligning with the Living Law. When we are in alignment with the Divine Law, the I AM (Jesus) fulfils the Law:

"I come to fulfil the Law"

When we are in alignment with the Law, and its door is opened within us, and the Spirit is quickened within us, the Love which is the essence of the Spirit flows through us, and in this way Jesus "fulfils the Law". In every way, in every parable He is teaching us, how to overcome our lower mind. In every way the lower minds of the collective hu-man family are seeking to sustain their thinking, not real-eye-sing:

"For the wages of sin is death; but the gift of God is eternal life through Jesus Christ our Lord".

Prayer is looking towards our higher Self,

listening to it, opening our hearts to receive its power and learning how to express this *gift* each day to increase individual peace, social harmony and UNITY with every member of the hu-man family. Those who say this is not possible have *not **yet** experienced the power and the indescribable beauty of the Spirit of God; the Fyre of God burning in our hearts.*

Prayer empowers us. It imparts to us Self-confidence, it strengthens us, it aligns us with the harmony of the Kingdom of the Heavens, it enables us to ‘tune into’ the omnipresent aethers, draw on, and send Divine Light and Love to those in need at any given time. The reason why so many ‘prayers’ seem to go ‘unanswered’ is because the person praying has not made Soul contact, they have not connected with the blueprint of the Spiritual I AM. They supplicate, they are not *praying*.

Prayer supplies everything we *need*. Our duty to ourselves is to “pray without ceasing”—that is to real-eye-s that Life is Prayer, and when we are Happy, healthy, peaceful, prosperous and joyful, then we are praying effectively. When we are suffering in some way, we are praying ineffectually, that is we have in some way lost sight and understanding of the Spiritual reality ‘under-standing’ the whole of creation. ***Prayer changes us, not God.***

Applied Meta-Physics is the oldest Science in existence. It is the study of who we are and why we are here.

It is sometimes called 'The Science of Making the Ideal Real', because it identifies in concrete terms the abstract workings of the mind, and teaches the steps every eternal idea passes through in transition from the plane of the eternal spiritual world, to become manifest on the earth plane.

The sacred writings we have inherited are meta-physical in nature. This means they have been written through the inspiration of the Paraclete using words, which have varied meanings, interpreted accordingly, depending on their context, and also, which level of consciousness the reader has achieved.

The *art* of Applied Meta-Physics is to 'conceal, to reveal'. The Wisdom the writers concealed protects it from those who would destroy the writings, *and therefore destroy themselves*, until a time when the human family matured and awakened and realised its need.

The scriptures are like an offer to an addict deep in the throes of ad-diction, rejecting what they really need most, and lashing out, because they have lost control of their own minds. In the height of the loss of control the addict attacks those seeking to help them and would destroy them.

The parables, riddles, analogies, codes and koans, etc., in the Helios Biblia have preserved these writings, as the power of the Word concealed within them has worked in the hu-man consciousness to do exactly that.

Applied Meta-Physics is the Key opening the way to comprehending their riches and applying the Wisdom revealed in one's life and proving the truth thereof.

There is a simple fact of life:

We are all created equal, in that we are all the offspring of God, and we form our lives by the thoughts, words, deeds we think, speak and do. The equality is that the Divine Law is no respecter of personalities.

We are all held responsible for everything we do, and our body either regenerates or degenerates according to the motives of our hearts. If we seek to rule others, we are using the life we have been given to express ourselves contrary to the Divine Law, and this is slow and definite suicide. If we submit to the will of another, this too is slow suicide and contrary to the Divine Law. When we align ourselves with the Divine Law and live by it, we THRIVE.

The LAW IS!

It is the Doorway to Everlasting Life.

PEACE.
