APPLIED META-PHYSICS, THE SCIENCE OF BE-ING AND KNOWING

Lesson 15: Of Time & Eternity

THE NATURE or essence of TIME is not agreed on by science. The fruit of my own experiences, both *in and out of the body*, tell me Time behaves like a MIST with different areas of density.

Quantum physics states similar, that all 'past', 'present' and 'future' is simultaneous. This is one of the reasons, I liken it to a 'Mist' and why our forebears used the word 'eternity'. Eternity means 'no time'. Time, as I will show is a 'mist' - as is recorded in the Book of Genesis.

So, there is a realm of 'Time' and

a realm of 'No Time'. There is a natural body ('physical') and there is a Spiritual body. Each is the nucleus of its own plane, and each is integrated with the other.

As our individual blueprint, the Spiritual body imparts life to us... and the natural body lives and moves through the natural world.

IN my own experiences, I have been taken out of the body, transported through 'Time', been shown certain events and then returned to the natural body... always wondering what the meaning and purpose of these episodes are, and what I can learn from them.

While being 'transported' through time, I AM still in the same spot. It is though the present moment opens like a portal, and I AM transported to which-

ever realm of mind, the Spirit is seeking to take me to, and shown the things *it* has decided I need to know.

In the Spirit, sometimes a few hours pass, and sometimes a few years. Sometimes even longer. As a child, during one particularly powerful episode I was shown what I accepted then, was my whole natural existence!

As I come back to the body consciousness, I pass through the same veil, which keeps us on this plane.

I call this veil, 'the veil of forgetting', because when I AM transported out of the body, I AM not conscious of the body, so have therefore 'forgotten it' (not as in oh, I forgot as in absent mindedness) and AM present to the Spiritual realms. And, when I 'come back' to the natural world,

I come through the veil of forgetting back to body consciousness and have to really focus hard on what I've been shown so I can retain it, ponder over it and make sense of it.

The veil of forgetting is a specific rate of vibration, which when leaving my body cleanses my mind of material awareness and draws me into the spiritual realms, which then embrace me and show me what is going to happen.

The Spirit has been transporting me in and out of this body for over sixty years. Last night as I was meditating, I was suddenly aware that I was in another realm, with other beings, yet, on this occasion, I was also aware that I was still sitting in my lounge. This time, I could feel a suppressive energy restricting my movements, and I was not

even able to open my eyes. When I called on the Spirit in my heart to be able to open my eyes and move, as I opened my eyes, there were a few presences in the room shining lights on me.

As I brought myself into the NOW, my own awareness increased and the presences dissipated. At no time did I feel any fear. I have for many decades been aware of the inner Fyre of the Spirit imparting life and grace to me, and I AM always protected by it.

Often, while “in the Spirit” I shall be shown ‘future’ events, and the challenge has been to find the words to share these events with without appearing as though one is deliberately creating them, for whatever reason.

I also have questioned their meaning; often they show me un-

pleasant things, and I have supposed these are teaching me, I shall come through them unscathed. At some periods of my life they were so frequent, I thought they were a curse, and I would swear at the presence to tell them to go away!

At other times, the process of transporting (especially when I invoked it myself) to the spiritual realms, was full of ecstasy and I could hardly wait to finish serving lunch or dinner to do the exercises I had been taught to invoke it.

On occasion I would be working, and the Spirit would overshadow me and transport me and show me things to unfold and then a split second later I'd be back in the galley or kitchen where I was working doing exactly what I was doing, although in my visions, in the same 'time', I'd been shown

events to unfold in the coming years.

In mid July 2001 I shared with some friends (not with full clarity) at a dinner party that

“buildings which the world will think it impossible to fall, shall fall in the next six weeks or so”...

And of course, we all know what happened in Sept 11th 2001. I had picked up on the inner a vision, while at the dinner table and had relayed it (as many did at that time). I have been shown beforehand many things, and this is why I have been in-spired to write this series of lessons this past two years.

Their purpose is to provide Spiritual Food for contemplation by the reader, to nourish and unite us, and to share insights into our Spiritual nature, not readily available. Why? Because:

The New World comes through us... *it is not foisted on us.*

I have been shown many aspects of this New and Magnificent World, which bears no resemblance to this existing world, and for reasons which I shall share below.

The fact that we each have a Spiritual body and a natural body, and these are melded into our 'body', our "Book of Life", means anyone can, when they get still and turn their mind towards the Spirit, invoking its presence, begin to 'see' into the Spiritual World, which is the *foundation of this world of appearances.*

This ability to pierce the veil is 'Pistis', translated as Faith.

*"Now faith is the substance of things hoped for, the **evidence** of things not seen".*

-Paul

Succinctly, Paul tells us what Faith is... what we are awakening to already exists in the Spiritual world, as Spiritual substance, and is made **evident** in the heart and minds of those who seek it.

Then, there is a lower form of 'faith' and that is 'belief', where one believes the person speaking *who had the experience...* in the same way you believe your mechanic can fix your car because of *his experience*.

Of course, primary Faith/Pistis cannot be forged. The secondary faith or belief is so often manipulated in the world, that often people do not know whom to believe.

This is also, why I say, believe nothing on face value. Take the words shared, contemplate them, reason over them, seek to under-

stand and apply them and *pierce the veil for yourself*. Then, everything you are brought into contact with, will have specific meaning for you to help you grow and mature into Spiritual consciousness.

When our forebears had these experiences, they captured them in parables, allegories, ciphers, numerology, and codes, etc., so that as we strive to understand their teaching, each level becomes clearer for us, and we are transformed.

ALWAYS the scriptures are using *what is seen in the world*, to build a *psychological bridge* in the minds of its readers and listeners, to increase their understanding.

“With all thy getting, get understanding”.

The understanding is *Spiritual Wisdom*, which, when we ex-

press it through Love, produces a *new consciousness in us; of our Unity with Spirit*. When this happens you have your own Spiritual experiences, which will, *when you pay attention to them*, continue more rapidly your *Spiritual education and the transformation of your character*. You will evolve from personal to universal consciousness, from the confusion of this world into clarity, and finally into the peace and harmony of Spirit.

EVERY reason you have been told to avoid 'religion' or to adhere to a school of thought posing as a 'religion', is to keep you unaware of your own Spiritual power and Sovereignty, so others can control you. This they do, because they have yielded to the temptation of the Race Thought Atmosphere and become its agents. Yes, similar to the

‘Matrix’ movie.

Our salvation is through restoring perfect Self-control and living in alignment with the *Divine Law*. (Just to remind the reader, the “two stones” of Moses are the Heart and Mind, where the Divine Law is inscribed, and these appear to the intellectuals as cold and lifeless stones, without real meaning or practical application in the World).

As the Law LIVES, we are always working to liberate ourselves as it teaches and guides us. Every moment, is the fruit of our thoughts, each guiding us, to learn the Way to LIFE.

“(For he saith, I have heard thee in a time accepted, and in the day of salvation have I succoured thee: behold, now is the accepted time; behold, now is the day of salvation.)

-Paul

It is always NOW.

Before ‘almost everyone’ had a cell-phone, and one needed to know what time it was, one would call to someone on the street, or stop a passer-by and ask them “What time is it now Jimmy?” (In Glasgow)

It is always **now**, and the decisions we are making, create the events of our lives and these events coalesce into ‘the past’ or an ‘envisaged future’.

If you will meditate on this you can see how, mentally we are each the full potential of all that is, and that our lives are shaped and reshaped by thought, and that *our imagination is shaping this world as it draws from Spiritual substance through Faith, and “facts” follow.*”

What we are in mind interacts with the Divine Law shaping our health and the events of our

lives.

Plato (reputedly) said: “*Time, the Moving Image of Eternity...*” and if you’ll meditate on this and *also* invoke the Spirit to reveal its deeper meaning, then you will be shown in a way *comprehensible* to you, *what it is you ask*.

While quantum ‘physicists’ state that “all is potential’ in the Spirit or Quantum realm, I recognise that the thought-words we think and speak every day *already have* formed the *psychic atmosphere*, which will condense as our bodies and the events of our lives.

Likewise, the seed-thought-words of our predecessors have already formed, on the psychic plane, events ***which will*** come to pass on this plane.

This fact is demonstrated in the parable of the wheat and the

tares:

“...Let both grow together until the harvest: and in the time of harvest I will say to the reapers, Gather ye together first the tares, and bind them in bundles to burn them: but gather the wheat into my barn.”

- Jesus (I AM)

This growth is on the plane of mind, where we are constantly selecting ‘wheat’ or ‘tares’ behaviour according to what **was** sown within us, and which we are to sort at “*the harvest*”, i.e. *when we are aware of the process at work within us.*

As we renew our thinking, we ascend from the lower (666) mind, into the higher (888) mind and we are transformed. We do not just be-have differently... *we are transformed* as we enter into a *whole new state of consciousness, where none of the suffering of the lower mind can exist!:*

“And God shall wipe away all tears from their eyes; and there shall be no more death, neither sorrow, nor crying, neither shall there be any more pain: for the former things are passed away”.

This passage is speaking about a *new state of consciousness* the whole hu-man family is ascending into. First, each of us must accept it is within us, and accessible, then do the necessary work each day to ReGenerate our thinking and attain it.

As we do the necessary ‘gardening of the mind’, the ‘Mist’ of ‘Time’ clears, and our understanding and comprehension of life increases and we *know ourselves differently*.

Genesis 2:6 reads:

“But there went up a mist from the earth, and watered the whole face of the ground.”

This ***mist*** is the ‘envelope’ of

'time', which as it dissipates, the 'ground' of consciousness is 'watered' by it, and the thought-words held within the mind grow to become our bodies, events of our lives (history), and the environment.

End.

Applied Meta-Physics is the oldest Science in existence. It is the study of who we are and why we are here.

It is sometimes called 'The Science of Making the Ideal Real', because it identifies in concrete terms the abstract workings of the mind, and teaches the steps every eternal idea passes through in transition from the plane of the eternal spiritual world, to become manifest on the earth plane.

The sacred writings we have inherited are meta-physical in nature. This means they have been written through the inspiration of the Paraclete using words, which have varied meanings, interpreted accordingly, depending on which level of consciousness the reader has achieved.

The *art* of Applied Meta-Physics is to 'conceal, to reveal'. The Wisdom the writers concealed protects it from those who would destroy the writings, *and therefore destroy themselves*, until a time when the human family matured and awakened and realised its need.

The scriptures are like an offer to an addict deep in the throes of ad-diction, rejecting what they really need most, and lashing out, because they have lost control of their own minds. In the height of the loss of control the addict attacks those seeking to help them and would destroy them.

The parables, analogies, codes and koans in the Helios Biblia have preserved these writings, as the power of the Word concealed within them has worked in the hu-man consciousness to do exactly that.

Applied Meta-Physics is the Key opening the way to comprehending their riches and applying the Wisdom revealed in one's life and proving the truth thereof.

There is a simple fact of life:

We are all created equal, in that we are all the offspring of God, and we form our lives by the thoughts, words, deeds we think, speak and do. The equality is that the Divine Law is no respecter of personalities.

We are all held responsible for everything we do, and our body either regenerates or degenerates according to the motives of our hearts. If we seek to rule others, we are using the life we have been given to express ourselves contrary to the Divine Law, and this is slow and definite suicide.

If we submit to the will of another, this too is slow suicide and contrary to the Divine Law.

The LAW IS!

It is the Doorway to Everlasting Life.

PEACE.
