# APPLIED META-PHYSICS, THE SCIENCE OF BE-ING AND KNOWING

## ESSAY: IMMORTALITY & THE “KING’S DAINTIES”.

If you wish electricity to be able to flow along a copper wire at optimum speed and with minimum dispersion, the filaments of the wire must be tightly bound together around the motor, and there should be no frayed edges. The same principle applies to your body; if you wish the power of LIFE to flow through your body at an optimum rate with minimum dispersion, the filaments (nervous system) of your body must be in peak condition.

Only when your nervous system is operating at a maximum, will your Spirit of LIFE flow at an optimum.

In Hu-man Be-Ing, our diet contributes greatly to the condition of every aspect of our body — and if we wish to manifest a greater ‘voltage’ of Spiritual life, we must be prepared to invest the time and energy into choosing and preparing the right foods.

Scripture teaches us to avoid the “king’s dainties”, and Meta-Physically speaking, ‘the king’ is the wayward or selfish ego; the lower 666

mind, and the “king's dainties”, are the pleasures created by the lower mind, that trap the body in unhealthy eating and *thinking* habits causing it to degenerate over time.

Each of the “king's dainties”, carries with it a price tag, causing the individual to ‘fall asleep’ to the real purpose and *power* of ‘food’, which is to build and help maintain perfect health, in the ReGeneration.

Because the lower mind has considered itself ‘king’, few people question themselves deeply enough, or the ‘authority’ of experience it presents — consequently, everyone grows ‘old’ and is expected to, so the deception carries more weight — after all who can avoid growing old? (A = all of us).

By this deception and the habit of seeking pleasure, the lower mind deceives each person not only into perpetuating it in their own life, but by the innate power of the word, spreading the deception into the lives of those around them...

In this way the deception becomes more ‘real’ and appears stronger — meaning that few people are able to see through it; and more people accept it ‘as the norm’.

As the body degenerates, this causes the life force to seep away, much in the same way that

electricity dissipates through frayed copper wire...

Look at the average person of 45 years of age and you will see much evidence of this kind of wear and tear. Look at the average person of 55 and the deterioration is worse. The rate increases in varying amounts as the person gets 'older' — 65 and 75 years old people have much less vitality and mobility than they should/can have.

What has happened is that the mind is seduced by the "king's dainties", *and these burden the mind and body, and usurp the vital energy needed to sustain the organism.*

This degeneration continues daily, in such small increments that no one notices, and in those that manifest the results of this type of behaviour — they deceive themselves into believing that it is inevitable, and call it 'old age'.

Once we accept the deception that we have called 'old age' — the lower mind consumes us, us, for we believe in our ignorance, that 'old age' has no cure. As much as science 'battles' 'old age' it is no closer to finding a solution.

The only way to eliminate old age from the Human experience is to understand how we got to this stage and its lesson for us. When we learn the lesson, we can change direction, or

‘repent’ and eliminate ‘old age’, and march bravely on into a new and brighter future.

So, in reality what we call ‘old age’ is due to a build up of toxins, malnutrition and the fact that *the mind will reproduce the ideas seeded into it.*

To use an example.

‘TIME’ is a ‘measure’.

Temperature is a measure.

If it is 22°C on Monday

22°C on Tuesday

22°C on Wednesday

We do NOT add these measures to one another and say it is 88°C on Thursday!

No, that would be untrue.

So, the exact same principle applies to ‘TIME’, what we call ‘time’ *also a measure*. It is the REVERSAL of the principle of Spirit EMIT (TING) Life to cause increase.

By the illusion of the ‘accumulative properties’ of ‘time’, our minds and bodies have become burdened with degenerate ideas, and the only sure antidote is ReGeneration.

To overcome ‘old age’, we first need to uproot the idea of getting old from the mind, and this is only possible when we know how to remain

focussed on the omnipresence of, and stay connected to the inner flow of Spirit – LIFE.

Through this *inner connection*, we realize that LIFE'S essence does not contain 'old age' 'sickness' 'disease' or 'death', that the race has experienced these things as a result of *ideas seeded in the mind*.

Infant hu-manity or 'Adam' man separated himself from the inner God, and went to pursue its own path... the result of this separation is that the idea of death was seeded in the mind, and has been passed to every following generation since.

As each generation has inherited the idea of death, it has, like every other idea in the garden of mind, grown stronger, and few have thought that it is possible to overcome. Even though, the vision of overcoming death has been handed down for millennia, no one has realized how it is possible or fully understood how we perpetuate death in consciousness.

We perpetuate death in consciousness exactly the way every other thing in life is created and sustained, first as an idea. That is, the idea of death reproduces itself, as people think about it and saturate the Race Thought Atmosphere with its fruit. Then, the hu-man family has become subject to this idea that it has uncon-

sciously, and consciously sustained in consciousness.

“Death is sustained by the idea of death”.

This process of sowing the seed idea of death into consciousness, has been difficult to understand because the forces that infant humanity set into motion caused it to ‘fall asleep’ – that is lose consciousness of the INNER flow of LIFE.

**NOWHERE in any scripture does it state that we have yet awakened from that sleep.**

YET, we are admonished to “awaken, that the Light of Life (Christ) may shine from within us”.

It is this Light, which is the ineffable joy, hidden within us, which empowers us to do all things.

It is this Light, which “shineth in the darkness, yet the darkness hath not apprehended it”.

So, this is the experience I speak of, the indescribable Joy, which flows through us, when we attain to the Light of Life!

Right now, this Light is what imparts life to each of us, yet, the moment we lose connection to the *inner flow*, we die.

What happens when we are not conscious of this inner flow is 'existence', life on a much lowered frequency, where pain and suffering are inevitable. It is NOT LIFE in its fullest, rather a gradual (according to the illusion of 'time' the sleep creates) demise, a degenerative materialistic state of mind, which causes the demise of the body.

Now, this degeneration was not fully understood, or taught, until around 2000 years ago at the advent of Christ. Christ really means 'anointed', 'light and power', and refers to the INFLUX or Welling Up, from within, of Divine energy, anyone can receive who will go within and seek to reconnect to their inner source.

When one is anointed or reconnects with the source, one has a foundation within oneself to start the process of 'gardening' one's whole being, renewing and re-generating character by the power and light (understanding) imparted by the Spirit.

The ReGeneration culminates in one attaining to the 'Water of LIFE' – the Living water Jesus (who represents the Divine I AM within every one of us) teaches about in the Gospels.

One who connects to the inner source can now speak with the authority of direct experience and as that experience grows, and as that person learns to draw more and more from the Well of Living Water within, the essence of

LIFE charges their words and whoever chooses to accept what they hear from that person, opens themselves up to accepting a greater charge of the Spirit; which when received and cultivated, shall create in them the Light of Understanding necessary for them to connect to their own inner source, and be a witness of the Light.

Such are the teachings of 'Jesus' (I AM), who connected with the inner source and told his peers:

"I and the Father are One!"

"I come that ye may have life and have it abundantly!"

"If ye keep my Word ye shall *never see death!*"

These are just a few of the utterances he shared and the 'Word' we are to 'keep'. When we 'keep' these words in mind, meditate on them and cultivate them until their harvest, we become more aware of the consciousness that LIFE is an inner flow, and that our most important task is *to connect to this flow and learn how to draw on it perpetually.*

**We are to use these words in our lives, to reconnect with the inner flow of Life.**

The advent of Christ was at a time when the world was just as much at turmoil as it is now

– the type of warfare has become more subtle, yet the seeds of death sown by Adam still bore (and continue to bear) fruit.

“As in Adam all die, so in Christ all are **made ALIVE**”.

Just as Adam, by the error of separation from God invented death, so, by being an expression of God, Christ sowed the seeds of everlasting LIFE, into the Garden of Hu-manity.

What WE are experiencing each day is NOT the struggle between ‘good and evil’ rather, the results of a sleeping consciousness, which classifies events and people as ‘good and evil’ according to its *limited perception*.

As the mind does so, it seeds and perpetuates the suffering created by the error of Adam.

This is why history repeats itself.

This time NOW is the harvest, – the “day of judgement”, is every day we ‘harvest’ the results of the seed ideas we hold in mind, and most of these ideas are so deeply rooted that people are led to believe they are hopelessly enslaved to them.

We are not: *no idea lives within us unless we consciously, or unconsciously give it life.*

Think deeply about this: death is the fruition *of the idea of separation from God*. Yet, as a Hu-man Be-ing, we are, in reality, an aspect of God's mind in activity.

WE can NEVER be separated from an omnipresent God! *WE do not breathe, God breathes through US ALL.*

This means that through this realisation, WE are free and immortal, not subject to any idea created by anyone at any time.

One needs to awaken to this fact and learn to see the omnipresent good, and be open to receive the omniscient Wisdom of God, whose offspring WE are, and the door to infinite creativity, omnipotence the ability to create whatever you need in your life *will pour forth from the source within you.*

As one grows in conscious awareness of the inner source, they will be taught (in-tuition) how to adapt their thinking, DIET, their be-have-i-our, that they may permanently dissolve in consciousness every error thought that reproduces itself, in some form of sickness, disease and death.

We speak only the words which describe (of the scribe) the conditions we desire (of the father) to experience, as we participate in the ReGenerative process of Life.

For as we have discussed, our first breath is Yah, someone's final breath is Weh, and everything one speaks in life is the Word of God, diluted by the influences of the Race Thought Atmosphere, which reduces the amount of power one is able to wield.

So, speak Words of Truth emitting from the Well of Inspired reason,; for the Word of God is bearing fruit and transforming everything, crowning it with LIFE – and in LIFE, there is no death.

YES! There are many questions to be answered, yet, just as we have grown and matured into Truth, we know that the answers we seek, shall be there, when our minds are able to grasp them.

I LOVE YOU ALL.

THE NEW WORLD COMES THROUGH US,  
NOT TO US.

This is how we use the Spoken Word, to become the 'gardener' of our being; re-generate every aspect of existence, and attain the crown of LIFE.

WE do the work each day to be a good steward of our garden, and prevent anyone from sowing seeds into our minds, which even tempts us to think, that we do not live in the Kingdom of God, here and now.

Both the breath in us, and the living creation, bear witness to the Royal Majesty of the Kingdom of Heaven within and all around us.

for that is the reality of God's creation, not the slavery of false religion, politics, intellectualism, and commercialism, all of which are the "King's dainties".

All those who point to some future date for a "messiah" to come, or even to the "end the world", have been deceived and are trying to deceive you - neither accept their witness, nor mine, rather receive the testimony and seek the Living Fyre/Water that flows in abundance from within your own Heart and you will KNOW the Truth and Truth's Spirit will free you from every limitation, created by every 'king' of the past and present.

So, a New World is being born – where there is no more sickness, disease, or death, as the Spirit within flows in increasing abundance, and there is nothing anyone can do to stop it,

**Applied Meta-Physics** is the oldest Science in existence. It is the study of who we are and why we are here.

It is sometimes called 'The Science of Making the Ideal Real', because it identifies in concrete terms the abstract workings of the mind, and teaches the steps every eternal idea passes through in transition from the plane of the eternal spiritual world, to become manifest on the earth plane.

The sacred writings we have inherited are metaphysical in nature. This means they have been written through the inspiration of the Paraclete using words, which have varied meanings, interpreted accordingly, depending on which level of consciousness the reader has achieved.

The *art* of Applied Meta-Physics is to 'conceal, to reveal'. The Wisdom the writers concealed protects it from those who would destroy the writings, *and therefore destroy themselves*, until a time when the human family matured and awakened and realised its need.

The scriptures are like an offer to an addict deep in the throes of ad-diction, rejecting what they really need most, and lashing out, because they have lost control of their own minds. In the height of the loss of control the addict attacks those seeking to help them and would destroy them.

The parables, analogies, codes and koans in the Helios Biblia have preserved these writings, as the power of the Word concealed within them has worked in the hu-man consciousness to do exactly that.

**Applied Meta-Physics is the Key** opening the way to comprehending their riches and applying the Wisdom revealed in one's life and proving the truth thereof.

There is a simple fact of life:

We are all created equal, in that we are all the offspring of God, and we form our lives by the thoughts, words, deeds we think, speak and do. The equality is that the Divine Law is no respecter of personalities.

We are all held responsible for everything we do, and our body either regenerates or degenerates according to the motives of our hearts. If we seek to rule others, we are using the life we have been given to express ourselves contrary to the Divine Law, and this is slow and definite suicide.

If we submit to the will of another, this too is slow suicide and contrary to the Divine Law.

The LAW IS!

It is the Doorway to Everlasting Life.

PEACE.
