APPLIED META-PHYSICS, THE SCIENCE OF BE-ING AND KNOWING

ESSAY: THE TONE OF THE HU-MAN VOICE

The Tone of the Human Voice

The tone and power of one's voice is a clear indication of the stage of spiritual maturity a person has reached.

Each organ of the body contributes to the overall tone, pitch, wavelength, and vibrational power the voice projects.

For those who have ears to hear (and have received the education into how the arrangement of the vibration (sounds) of each organ, resonating in the body, which produce the range of tones one can speak in)... let them hear.

The body is our Book of Life, it reveals everything we are, for those who have eyes to see, and can read the correspondences and know, by what they read, what needs to be corrected to perfect health.

The body, as the Book of Life, is as easy to read as is a sheet of music is, to a highly trained and skilled musician.

The organ in many old temples and church buildings are an analogy for the human body itself, which, when played intuitively, produces beautiful music (Wisdom, peace of mind) and Love, harmony (social harmony).

Yet another aspect of 'Knowing thyself'...

Listen carefully to the nuances of the voices and tones of those speaking to you.

There is much revealed in the spoken word, when one listens carefully.

We are all aware when people are eager, excited, angry, etc. Look and listen carefully and one can hear and see when people are being deceitful, greedy, selfish and try to hide it.

Have a wonder-filled day.

Next up - Why the Solar Plexus is so called.

I Love you ALL.

Applied Meta-Physics is the oldest Science in existence. It is the study of who we are and why we are here.

It is sometimes called 'The Science of Making the Ideal Real', because it identifies in concrete terms the abstract workings of the mind, and teaches the steps every eternal idea passes through in transition from the plane of the eternal spiritual world, to become manifest on the earth plane.

The sacred writings we have inherited are metaphysical in nature. This means they have been written through the inspiration of the Paraclete using words, which have varied meanings, interpreted accordingly, depending on which level of consciousness the reader has achieved.

The *art* of Applied Meta-Physics is to 'conceal, to reveal'. The Wisdom the writers concealed protects it from those who would destroy the writings, *and therefore destroy themselves*, until a time when the human family matured and awakened and realised its need.

The scriptures are like an offer to an addict deep in the throws of ad-diction, rejecting what they really need most, and lashing out, because they have lost control of their own minds. In the height of the loss of control the addict attacks those seeking to help them and would destroy them.

The parables, analogies, codes and koans in the Helios Biblia have preserved these writings, as the power of the Word concealed within them has worked in the hu-man consciousness to do exactly that.

Applied Meta-Physics is the Key opening the way to comprehending their riches and applying the Wisdom revealed in one's life and proving the truth thereof.

There is a simple fact of life:

We are all created equal, in that we are all the offspring of God, and we form our lives by the thoughts, words, deeds we think, speak and do. The equality is that the Divine Law is no respecter of personalities.

We are all held responsible for everything we do, and our body either regenerates or degenerates according to the motives of our hearts. If we seek to rule others, we are using the life we have been given to express ourselves contrary to the Divine Law, and this is slow and definite suicide.

If we submit to the will of another, this too is slow suicide and contrary to the Divine Law.

The LAW IS!

It is the Doorway to Everlasting Life.

PEACE.
